ONE DAY WEBINAR ON BIODIVERSITY CONSERVATION

Death, devastation, deluge and deficit—these were never as prominent as they are now. The world around us is changing rapidly, and with a synchronized pace, our way of survival is adapting newer methods. In this new era of physical distancing and virtual interweaving, the age old theories of conservation and sustainable use of all resources are now established as firmly as ever. We are now trained with our life to be cautious, to be judicious and to consume sustainably. In this backdrop, where conservation and restoration are the key to survival, to commemorate the “**International Day of Biological Diversity**” on **22nd May**, the Department of Conservation Biology, Durgapur Government College is organizing a Webinar on “**Necessity of Biodiversity Conservation: Relevance to Modern World**”.

The webinar will resume at **5:30 PM** on **27th May**, 2020 on the web platform:

You are invited to an online meeting, powered by TeamLink.

Link to join the

meeting: <https://m.teamlink.co/2771953666?p=ebe83af665bd4d6c2b49f1a0588a50ad>

Two eloquent speakers from The Bombay Natural History Society (BNHS) and Wildlife Information and Nature Guide Society (WINGS) will deliver their thoughts.

On this auspicious occasion, we cordially invite all interested students and teachers to participate in this webinar and solicit your kind co-operation to make this venture a grand success.

Dr Moitreyee Chakrabarty
Assistant Professor and Head,
Department of Conservation Biology
