### Online Mode of Teaching

I have taught my students through Zoom meeting session, TCSION portal and also communicated them through whatsapp group. I took online classes through live Zoom meeting, since text reading becomes essential for better understanding of the lesson. I took help of TCSION portal to upload the study material needed for the students. The TCSION portal was also used to give assignments. Assignments were received through my personal mail. In many cases students found convenient to communicate through whatsapp group, especially in case of short voice recording messages essential for inserting certain important points regarding answer writing etc. The whatsapp group was thus accordingly employed for such benefit of the students.
