2.14 Significant Activities and contributions made by IQAC

The Internal Quality Assurance Cell (IQAC) in conjunction with the Principal and other administrative bodies of the college, work continuously in upholding and maintaining the academic excellence in the College. It devotes time in encouraging and extending its complete support for the academic and administrative improvement of the college. Members of IQAC hold formal meetings and even informally they meet with each other in regular interval to especially monitor the teaching quality and research based work culture of the college. Moreover, the Coordinator along with other faculty members visit the Departments and also as and when required by the respective departments. The external members, eminent persons from different spheres of society and alumni of the college keep in touch with the faculty members and all members meet in formal meeting as and when required.

IQAC works to improve the quality of research projects undertaken by the faculty members of different departments and also encourages young faculty members to apply for various minor and major research projects to National funding agencies like DST, CSIR, UGC, DBT etc.

IQAC holds discussions and interactions with the peer group of reputed government colleges and universities to introduce advanced teaching methodologies.

IQAC has been recognized as the internal sanctioning authority of the career advancement scheme (CAS) for the faculties. IQAC of this college pays sincere attention for the authentication of the data provided by the incumbent applying for CAS. This year screening of six faculty members have been organised in the college itself, and their respective files have been sent to Department of Higher Education for administrative approval.

IQAC is very active to maintain contact with the students to enhance the quality of student life in the campus. Computer literacy of each department is among the primary initiatives of IQAC so that the departmental data can be archived in the database format. Moreover, computer literacy can initiate improved teaching processes and research techniques for each department.

IQAC encourages different NSS and NCC programmes and provides its complete support and initiative to engage yearly special camps for these activities.

All the major committees of the college are represented in the IQAC. IQAC and TCS (Secretary, Teacher’s Council) work together to monitor the mode of functioning of each internal committee of the college. IQAC provides suggestions to library committee to introduce e-book learning system in each department. IQAC in association with the Cell for Gender Sensitization take every initiative for the education and empowerment of woman. IQAC further assists the Principal to follow up with the concerned authorities for the funding related to the infrastructural development in the college.

2.6 Innovative processes adopted by the institution in Teaching and Learning

Class room experiments are demonstrated for better understanding. Some departments use different academic softwares such as Gaussian, Gauss view, Systat, Geopet etc. to ensure advanced learning process. Remedial classes are organized for the students. Teachers use laptops and LCD projectors in the class rooms to demonstrate different topics. Students are encouraged to follow several educational videos available online for better understanding. The students of Departments of Geology, Zoology, Botany and Conservation Biology are taken for their field/excursion tour programme as per the requirement of their respective syllabi. The field tours give the students hands on experiences on the subject taught in theoretical classes. Besides these departments, a few non practical based Departments

like History, English and Philosophy also organize educational tour for their students which have become of immense help to them. The educational tour organized by Department of English was in Kolkata theatre performance. Department of History organized educational tour to the Indian Museum for the students. Orientation programme for the first year students was arranged by Department of Philosophy. The learning process is further enriched by Departmental seminars, projects, quiz competitions etc. The students of each years of Geology Department were taken for their compulsory geological fieldwork in different places like Ghatshila, Jharkhand, Purulia, West Bengal, Chandipur, Orissa etc.

5. Student Support and Progression

5.1 Contribution of IQAC in enhancing awareness about Student Support Services

IQAC plays a significant role in this context. Students are made aware of the following through regular discussions and notice board display. Teachers also join hands with IQAC to provide this information in the regular classes as far as possible and help them to follow up with these processes if needed. At the beginning of each session, Principal provides a presentation highlighting the importance and functioning of support services of the college for newly admitted students.

- Admission norms and courses offered at UG/PG level by the institution.
- Year wise updating of text books, reference books .
- Available computation facilities (existing as well as newly added)
- Scholarship schemes and any other financial assistance programmes organized by the government for the students.
- Seminars/workshops organized by the departments.
- Opportunities to participate in games and sports events.
- NSS events and any other social responsibility awareness programmes organized by the institution.
- Filtered water facilities available to the students.
- Gender Cell awareness campaigns and seminars
- Special classes on environmental awareness for the students.

5.2 Efforts made by the institution for tracking the progression

Continuous internal assessment practices are carried out to track the progress of students. In this context, class tests are taken by each department. Those students who feel difficulties to cope up with the academic standard of the college are provided extra help by the teachers on request. Remedial classes are organized for the students. The results of students in different internal assessment exams are kept preserved to track the progress and provide proper advice for improvement.

6. Governance, Leadership and Management

6.1 State the Vision and Mission of the institution

Established on the 22nd day of January, 1969, Durgapur Government College, affiliated to the University of Burdwan. Durgapur Government College was the only government degree college not only in the home district of Burdwan, but also in the neighbouring districts of Birbhum, Bankura and Purulia. Government of West Bengal established Durgapur Government College during the time when Durgapur was coming up as industrial urban hub of West Bengal. Durgapur is an industrial town that was being built around a host of large and medium scale industries in the public and private sector and the ancillaries thereof. With the settlement of many thousands of industrial workers of all ranks in Durgapur, the need was felt for an institution offering higher education that would nurture prospective students a quality education and it was to meet this demand that the college was established. As being the oldest institution of its kind to come up in the steel city of Durgapur, Durgapur Government College has moved from its initial modest intake capacity of 150 students to that of around 2500 students out of which fifty percent are girl students. The institution aims to maintain an intellectual environment and mainly focuses to administer an overall healthy work culture with the objective of student welfare. The institution also emphasizes the mission of secularism and gender equality in all respects. Cultivating the greed of education among students is the main goal and the mission is to shape the students for a better future so that they are equipped with the skill sets required in today's professional sphere. The institution further aims to install a research based innovative approach among the students required for their advanced learning.

6.2 Does the Institution has a management Information System

NO

6.3 Quality improvement strategies adopted by the institution for each of the following:

6.3.1 Curriculum Development

The Institution implements the Syllabus and Curriculum of Kazi Nazrul University, Asansol. Since the college is affiliated to this University, there is no scope of development of curriculum on its own.

6.3.2 Teaching and Learning

Although chalk and talk method is the most conventional method used in the classrooms for teaching, especially in Humanities and Commerce Departments, presently teachers are actively using laptops and LCD projectors in the class rooms to make the teaching learning process more interactive. Class room experiments are also demonstrated for the students for better understanding. Some departments use different academic softwares such as Gaussian, Gauss view, Systat, Geopet etc. to ensure advanced learning process. Internet access is provided to students under the supervision of teachers. Remedial classes are organized for the students. Students are encouraged to follow several educational videos available online for better understanding. The learning process is further enriched by Departmental seminars, projects, quiz competitions etc. by each department.

6.3.3 Examination and Evaluation

Continuous internal assessment is conducted by each department to evaluate the students. Test examinations for general and Honours subjects are organized by the institution prior to the university exams under annual system. This ensures the screening of students to appear in the university examinations. In addition, internal assessment of PG students is carried out by viva-voce and seminars. Internal assessment examinations for the practical courses are also taken in each department.

6.3.4 Research and Development

Basic laboratory facilities and necessary equipment are provided as far as possible to the faculty members to carry out the research projects. Students of PG courses prepare science projects in their final semesters which are generally related to research studies.

6.3.5 Library, ICT and physical infrastructure / instrumentation

Library uses Libsys 4 ls starter (rel 6.0) version to archive the books present in the library. About 12000 books have been included in the digital database. About 114 educational CDs are also available. Recently, efforts are being made to introduce KOHA software to archive the study materials present in the central and seminar libraries.

6.3.6 Human Resource Management

The institution sincerely works to prepare the students for their higher studies. The foundation is made at the UG and PG level. Apart from the routine academic classes, students are also given exposure to sports and seminar. Faculty members of this institution are provided a healthy research atmosphere to enrich their academic career. Moreover, they are also opted in different college sub-committees which provide administrative experience to them.

6.3.7 Faculty and Staff recruitment

Teaching and office staffs are recruited by the Public Service Commission of West Bengal

6.3.8 Industry Interaction / Collaboration

NIL

6.3.9 Admission of Students

Admission committee of the institution ensures a justified and proper admission system in the college strictly on the basis of merit. The seat capacity, admission procedure and eligibility criteria are displayed in college website and noticeboards well in advance of the date of admission. Online application process is quite transparent, efficient and user-friendly. The admitted students are registered under Kazi Nazrul University, Asansol.

6.14 Initiatives taken by the institution to make the campus eco-friendly

The College campus consists of profound greenery and well managed landscape gardens, one in front of the main academic building and other in front of the Geology Department. Cleaning of campus is a routine job of NSS students. Plantation of flowering plants for beautification is also carried out. NSS has a special programme on Briksha Ropan for tree plantation. The campus consists of dustbins for waste collection.

7. Innovations and Best Practices

7.1 Innovations introduced during this academic year which have created a positive impact on the functioning of the institution. Give details.

Two virtual classrooms have been started this year, the departments are arranging for special lectures of their respective subject experts.

7.2 Provide the Action Taken Report (ATR) based on the plan of action decided upon at the beginning of the year

Plan of Action	Achievements
Plan of NAAC Accreditation for the 2 nd cycle	Long term initiative for infrastructural, administrative and academic upgradation of the college with financial support from Government. Visit of NAAC Peer Team on 17 th and 18 th September 2017 Award of Grade A (CGPA 3.02) Application for fund from RUSA
Plan of promotion of research projects	1. Some faculty members are engaged in active research 2. Junior faculty members (fresh appointment) are encouraged to complete their respective doctoral work (if already not done). 3. Junior faculty members who have already acquired their doctorate degree are encouraged to apply for research projects from various funding agencies.

7.3 Give two Best Practices of the institution (*please see the format in the NAAC Self-study Manuals*)

1. Academic Exhibitions are organized by students to promote general awareness.
2. Durgapur Government College has adopted two local villages and carried out cleanliness campaign in these villages. Faculties have worked sincerely to promote education awareness in these villages.

7.4 Contribution to environmental awareness / protection

The College campus consists of profound greenery and well maintained gardens. Both landscape gardening and maintenance of medicinal garden has been initiated this year. Cleaning of campus is a routine job of NSS students on every Saturday. NSS has a special programme on Sapling Plantation as environmental awareness initiative. Students of final year graduation courses are encouraged to prepare different projects on environmental conservation, preserving biodiversity and methods of reducing different forms of environmental pollution.

Environmental science classes are also organized by the faculty members in this context to create awareness. Special camps are arranged to promote cleanliness awareness in nearby villages.

7.5 Whether environmental audit was conducted? Yes No

7.6 Any other relevant information the institution wishes to add.

Strength: The Institution comprises of qualified senior and junior faculty members. The senior teachers due to their experiences are able to tackle different types of student related issues. On the other hand, junior teachers are enthusiastic to undertake student development programs through innovating ideas of teaching and evaluation. The teachers are actively engaged in research works with projects from UGC and other National/ State level funding organization. Seminar libraries of different departments are enriched with several text books, reference study materials and advanced course material to impart better knowledgeable guidance to the students. Post graduate students get ample opportunities to get acquainted with the computation processes required for their future research prospects. Moreover, they are guided to complete different projects during their final semesters. The post graduate students are also guided to carry out different social outreach projects during their final semesters. Protected areas all over India require sufficient number of trained personnel with a strong scientific basis for their successful implementation. M.Sc. course in Conservation Biology fulfils this demand for increased research and monitoring of the biological resources and the physical habitats. This department is unique in this sense among the other colleges of Bardhaman District.

Weakness: Different departments lack spectral instruments required for some advanced practical demonstrations. The numbers of classrooms and laboratories are not sufficient. Lack of space in the existing classrooms is a major issue. Moreover, the existing laboratories require renovation to ensure appropriate working space and other advance facilities to the students. A separate computer lab for undergraduate students is also required to provide hands on training and practical experience of software projects.

Opportunities: Durgapur, being a steel city with many such associated plants and factories and so having developed a good infrastructure to stay and work with, provides good job opportunities to our students. After completion of the graduation course from this college, many of our students are also encouraged to undertake different professional courses including doing masters in business administration to finally get good opportunities in different sectors like hotel and tourism, real estate, share market, etc. apart from education, banking and insurance. Students of PG Departments have qualified national level eligibility tests like GATE and NET. Five students are pursuing their Ph. D. research under the guidances of four faculty members of Geology Department. One of the students of Conservation Biology have already got his PhD degree from the University of Burdwan and has got registered for Dr. D. S. Kothary Post-Doctoral Research Fellowship at Jadavpur University while three others have submitted their thesis and awaiting their PhD degree. More than 10 others are presently doing their doctoral research in several national institutions. Apart from this, students have been absorbed in Governmental jobs like

Geological Survey of India, Central Ground water Board, Oil and Natural Gas Corporation, West Bengal Forest service and several other NGOs’.

8.Plans of institution for next year

- In view of acute space crisis in academic buildings, this year proposals have been submitted to state government for construction of an academic building for the science departments.
- Chemistry Department being the PG department has submitted proposal for a separate departmental building with spacious classrooms and well equipped PG and UG practical laboratories with research facilities. Chemistry department aims to impart the knowledge of applied chemistry (specifically industrial chemistry) to the students with practical training to enrich their work experience.
- Improving the learning process by implementing modern teaching aids and proper upgradation of the library.
- Organizing State and National Level Seminars, projects, awareness seminars, quiz competitions and national level competitions in different departments.
- Philosophy Department plans to arrange orientation seminars for first year students
- Arranging of educational tours for arts departments for stress free learning.
- Student counselling and career guidance plans
- Conservation Biology department has planned for its infrastructural development in the form of laboratory equipments and seminar library.
- Physics dept has planned for its infrastructural development in the form of laboratory equipments and water supply system.
- Geology dept plans to arrange extra classes for students for competitive examinations like JAM and UPSC beside regular class work.
- Introducing the feedback techniques and arranging parent-teacher’s meetings on regular basis.
