16	Mathematics under DBT STAR COLLEGE SCHEME	Some Zero-sum problems and elementary results in Additive Combinatorics	Dr. Sukumar Das Adhikari Professor and Dean, School of Mathematical Sciences, Ramakrishna Mission Vivekananda Educational and Research Institute	Offline	11-09-2023

INVITED LECTURES ON 29.05.2024

Report: Under the DBT Star College Scheme, the Department of Mathematics organized an enlightening invited lecture on “Limit of Functions.” Dr. Arijit Ganguly, Assistant Professor in the Department of Mathematics at IIT Kanpur, delivered this talk to our undergraduate students on May 29, 2024.

Dr. Ganguly approached the concept of limits from an elementary standpoint, ensuring clarity and accessibility. His in-depth discussion delved into the subtle nuances of this fundamental topic. The engaging presentation captivated our students, and they had the valuable opportunity to interact with the esteemed speaker.

During the lecture, Dr. Ganguly introduced the topic through a problem, gradually unfolding its intricacies. Step by step, he led the audience toward the aimed theorem—a journey that left a lasting impression on our students.

No. 249

Date: 27-05-2024

NOTIFICATION

This is for information to all concerned that Department of Mathematics will conduct online invited lecture and interactive session on “Limit of functions” by **Dr. Arijit Ganguly, Assistant Professor, Department of Mathematics, IIT Kanpur** on 29-05-2024 from 7 pm onwards under the DBT STAR COLLEGE SCHEME for students, research scholars and faculty members of departments of Botany, Chemistry, Conservation Biology, Geology, Mathematics, Physics and Zoology.

The registration link for the aforementioned event is given below

<https://forms.gle/QSMcFWaW7EPatdq28>

Heads of all Departments, Departmental Coordinators and Faculty members of the aforementioned departments are requested to register and participate in the aforementioned event and also inform all students of their respective departments to register and actively participate in the aforementioned event.

Affiliated to Kazi Nazrul University | UGC 2(f) and 12(B) Recognized

DBT STAR COLLEGE SCHEME
Invited Lecture on
"LIMIT OF FUNCTIONS"
May 29, 2024

ABSTRACT OF THE LECTURE
The concept of limit is at the heart of Calculus. In this talk we shall discuss at length in order to have a thorough and comprehensive understanding of the subtle aspects of the same.

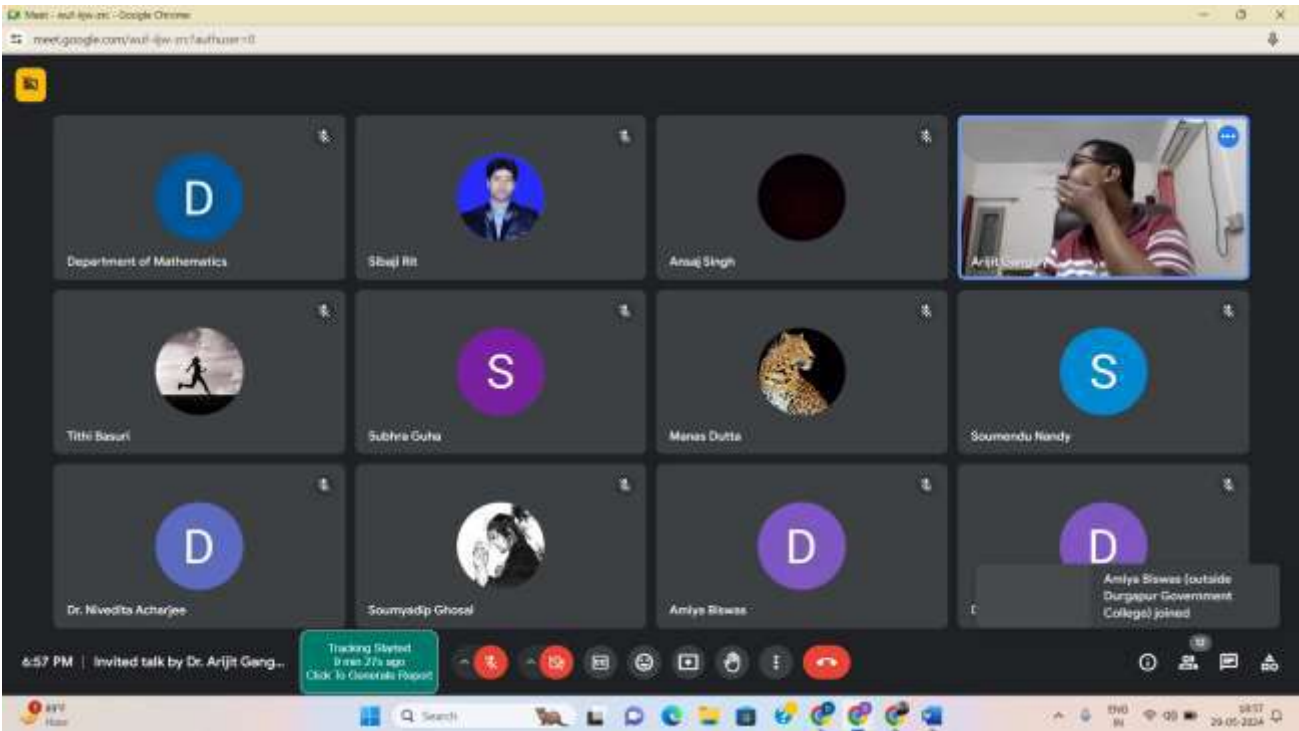

LIMIT OF FUNCTIONS

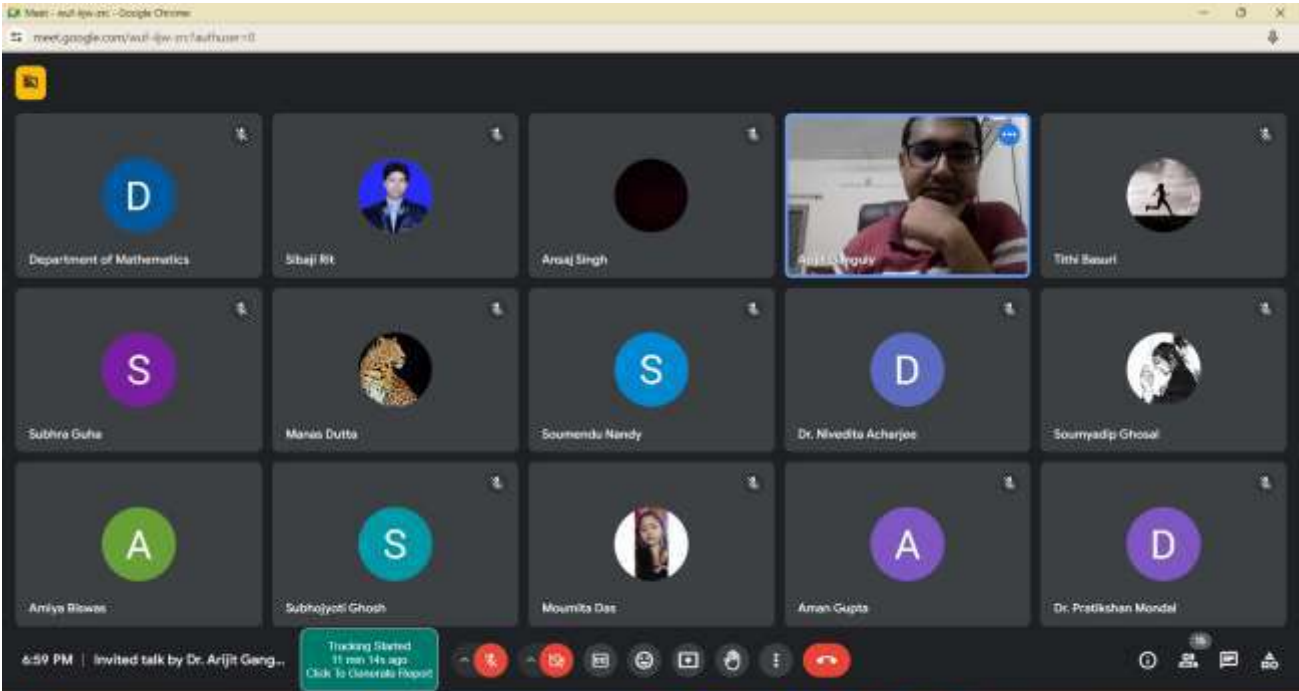

SCHEDULE
7.00 pm to 7.10 pm: Inaugural Session
Welcome Speech by the Principal, Durgapur Government College,
Objective of the lecture series by Coordinator, DBT Star College Scheme
7.10 pm to 8.10 pm
Invited Lecture by Dr. Arijit Ganguly followed by Interactive Session with participants.

Dr. Arijit Ganguly
Assistant Professor
Department of Mathematics
IIT Kanpur

Organized by
Department of Mathematics
Durgapur Government College

DBT STAR COLLEGE SCHEME

The DBT STAR COLLEGE SCHEME is a scheme of Department of Biotechnology (DBT), Government of India, to support institutions offering undergraduate education across the country. Durgapur Government College received the prestigious DBT STAR COLLEGE SCHEME grant in September 2022 for six science departments, namely, Botany, Chemistry, Geology, Mathematics, Physics and Zoology. The scheme will involve workshops, hands on training, new experiments, seminars, invited lectures, faculty development programmes, visits to research laboratories, industrial training, outreach activities and several other innovative initiatives to promote the undergraduate science teaching through practical learning and student-centric methodologies.

OBJECTIVES OF THE INVITED LECTURE

This invited lecture is intended to impart the understanding of the fundamental aspects of the Quantum Mechanics for undergraduate students. The invited lecture will introduce and motivate students about the significance of interdisciplinary research practices of quantum mechanics in solving scientific problems.

Linear Algebra-1

$$P(\phi) = \begin{pmatrix} \alpha \\ \beta \end{pmatrix} = \begin{pmatrix} \alpha \\ \beta \end{pmatrix} = \begin{pmatrix} \alpha \\ \beta \end{pmatrix}$$

$$P(\phi)|0\rangle = \alpha|0\rangle$$

$$P(\phi)|1\rangle = \beta|1\rangle$$
 It can be realized using a glass plate

$|0\rangle$ corresponds to $\begin{pmatrix} 1 \\ 0 \end{pmatrix}$
 $|1\rangle$ corresponds to $\begin{pmatrix} 0 \\ 1 \end{pmatrix}$

$\alpha_0|0\rangle + \alpha_1|1\rangle$ corresponds to $\alpha_0 \begin{pmatrix} 1 \\ 0 \end{pmatrix} + \alpha_1 \begin{pmatrix} 0 \\ 1 \end{pmatrix} = \begin{pmatrix} \alpha_0 \\ \alpha_1 \end{pmatrix}$

Check the effect of NOT gate introduced in the context of outer product

$$|+\rangle = \frac{1}{\sqrt{2}} \begin{pmatrix} 1 \\ 1 \end{pmatrix}$$

$$|-\rangle = \frac{1}{\sqrt{2}} \begin{pmatrix} 1 \\ -1 \end{pmatrix}$$

$$[M_+, M_-] = |+\rangle\langle+| + |0\rangle\langle 0| - |0\rangle\langle 0| + |-\rangle\langle-|$$

$$= \frac{1}{\sqrt{2}}(|+\rangle\langle 0| + |0\rangle\langle+|) - \frac{1}{\sqrt{2}}(|-\rangle\langle 0| + |0\rangle\langle-|)$$

$$= \frac{1}{2} \begin{pmatrix} 1 \\ 1 \end{pmatrix} \begin{pmatrix} 1 & 0 \end{pmatrix} - \frac{1}{2} \begin{pmatrix} 1 \\ -1 \end{pmatrix} \begin{pmatrix} 1 & 0 \end{pmatrix}$$

$$= \frac{1}{2} \begin{pmatrix} 1 & 0 \\ 1 & 0 \end{pmatrix} - \frac{1}{2} \begin{pmatrix} 1 & 0 \\ -1 & 0 \end{pmatrix} = 0$$

Modern Techniques of Molecular Biology and Plant Biotechnology for UG Students

invited lecture

The invited lecture aims to teach participants about the basic techniques in molecular biology and biotechnology especially for ug students to grow the interests in advance technique

The objectives further include disseminating knowledge to students about the tissue culture system and regarding the advancement in this field

Feedback for DBT Star College Scheme Sponsored One Day Invited Lecture Modern Techniques of Molecular Biology and Plant Biotechnology for UG Students

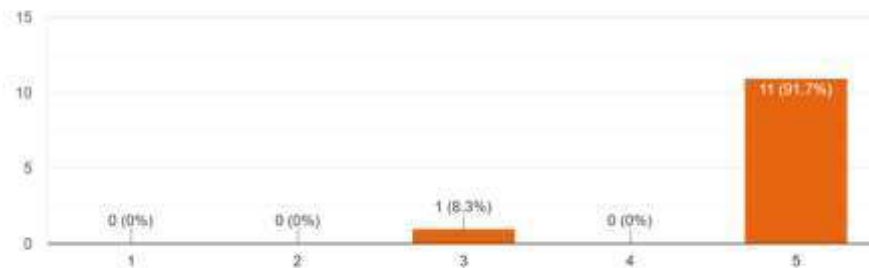

Organized by Department of Botany

INVITED LECTURE ON 04.05.2024

Report: Under the DBT Star College Scheme, the Department of Mathematics organized an enlightening lecture on "Differential Equations." Dr. Arnab Chakraborty from the Applied Statistics Division at ISI Kolkata, West Bengal, India, delivered this talk to our undergraduate students on May 4, 2024.

Dr. Chakraborty took an unconventional approach, emphasizing why differential equations naturally arise. He also highlighted common misconceptions found in standard curricula. The lecture maintained an elementary and engaging tone, making it accessible to students with a high school-level familiarity with differential equations. Beyond learning from an alternative perspective, students had the valuable opportunity to interact with this esteemed resource person.

Annab Chakraborty (Presenting)

For example,

if the differential equation is

$$\frac{dy}{dx} = \frac{y}{x}$$

then a solution is $y : (0, \infty) \rightarrow \mathbb{R}$ where

$$y(x) = 2x.$$

Another solution is $y : (-\infty, 0) \rightarrow \mathbb{R}$ where:

$$y(x) = 2x.$$

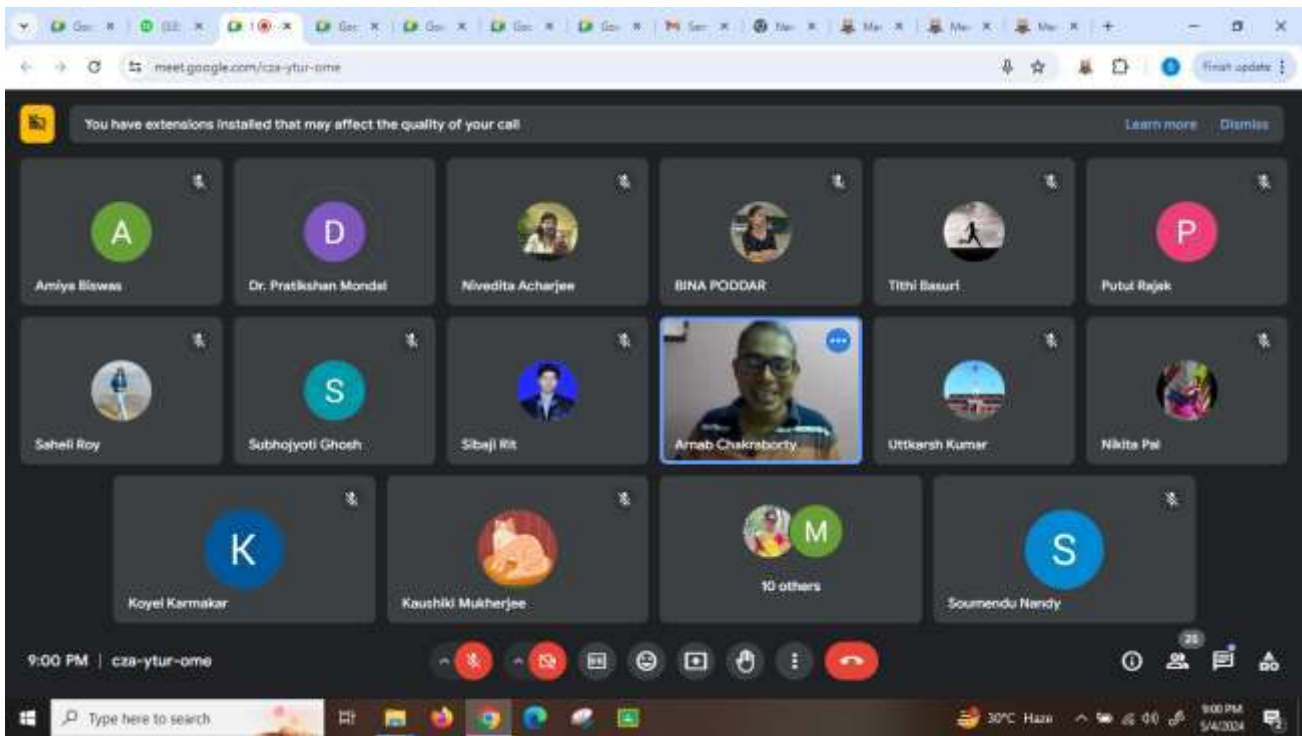

But is $y : \mathbb{R} \rightarrow \mathbb{R}$ a solution where

$$y(x) = 2x?$$

No! At $x = 0$, LHS=2 but RHS is undefined!

20/04/2024

Speaker: Dr. Achiransu Acharyya, Assistant Professor, Department of
Economics and Politics, Visva Bharati University

Organized by: Department of Economics, Durgapur Government College

Report:

The special lecture aimed to explore the complex relationship between economic growth, climate change, and sustainable development. Dr. Acharyya delved into key concepts, challenges, and potential solutions, emphasizing the need for informed policy decisions. Dr. Acharyya highlighted the economic implications of climate change. The lecture explored the possibility of achieving sustainable economic growth while addressing climate change. Dr. Acharyya connected the lecture's themes to undergraduate economics education. The lecture encouraged students to critically analyze policy options, consider trade-offs, and propose solutions that align with economic welfare and environmental stewardship.

The special lecture provided valuable insights into the conundrum of economic growth, climate change, and sustainable development.

Report on Special Lecture on:

**Demographic Dividend in India: Is it a “Demographic Gift” or a “Demographic Burden”
on**

27/04/2024

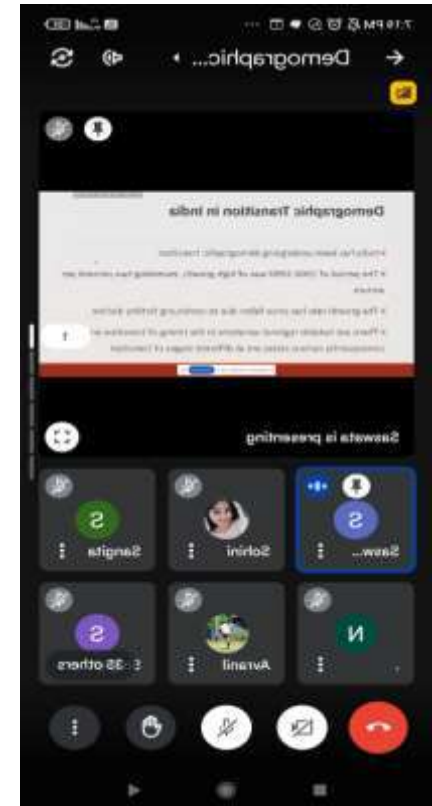

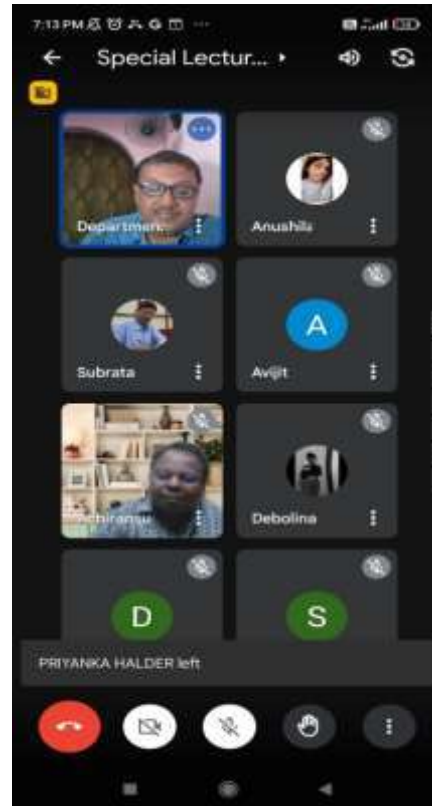

Speaker: Dr.Saswata Ghosh, Associate Professor, Institute of Development Studies, Kolkata

Organized by:Department of Economics, Durgapur Government College

Report:

India’s demographic dividend refers to the advantage of having a large working-age population. It can fuel economic growth if harnessed effectively. India’s population is expected to continue growing, and its abundant labor force positions it well for domestic growth and global supply chain diversification. Dr. Ghosh delved into the relevance of understanding the demographic dividend which presents both challenges and opportunities. The lecture topic helped the students to understand the essential features of Indian Economy which is taught in the UG course.

Some snapshots of the special lectures is attached below:

Assistant Professor
Department of
Philosophy
Presidency University

As part of the Special Class; Online Special Lecture organized on 9,4,2024; 'Mapping of Rene Descartes' Philosophical ideas as a Rationalist Philosopher'; by Dr. Priyanka De, Assistant Professor Department of Philosophy Presidency University

TITLE OF THE ONLINE SPECIAL LECTURE: 'Mapping of Rene Descartes' Philosophical ideas as a Rationalist Philosopher'

SPEAKER: Dr. Priyanka De, Assistant Professor Department of Philosophy Presidency University

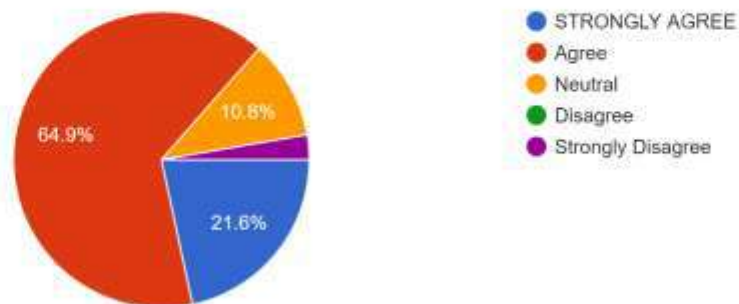

THEME & OBJECTIVE:The theme of the online special lecture was the mapping of the Philosophical thoughts of the French philosopher and scientist; Rene Descartes born in March 31. 1596 France. The theme centred round issues like why Descartes was called a philosopher and a scientist, whom did he influence by his thoughts? What was he famous for? And how do we map all the thoughts that he propagated philosophically?

The objective of the special lecture organized as an activity of the Special class allotted in the Routine was to make students aware about the works of a philosopher which earned him the title of a scientist as well. Students of Philosophy may study as a part of their syllabus about Rene Descartes as a Philosopher but they must also learn that there was in fact little difference between the courses or study back in the 17th century.

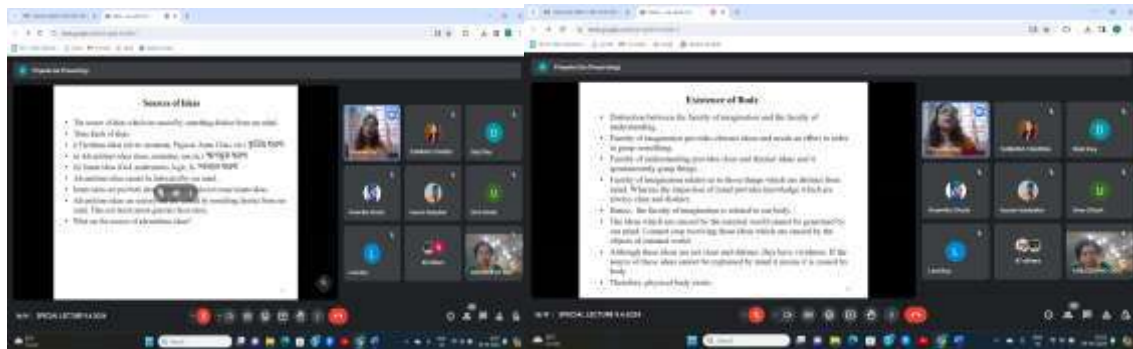

OUTCOME:Students participated enthusiastically participated and responded to one of the feed back questions given in the following way:-

DO YOU THINK THAT MAPPING OF A PHILOSOPHER'S THOUGHTS HELPS IN THE INTEGRAL UNDERSTANDING OF THE RELATED THEORIES WELL?

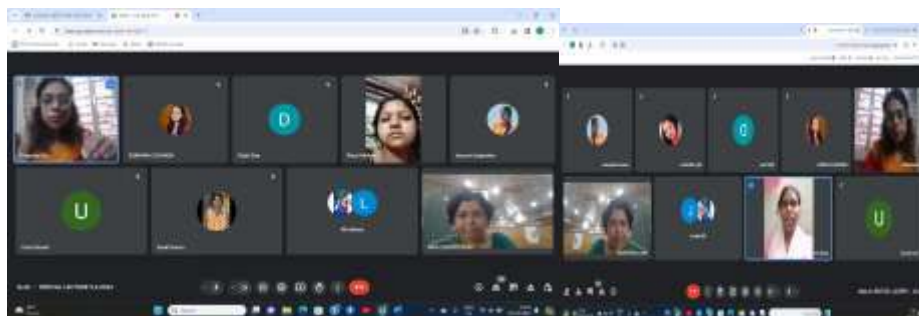

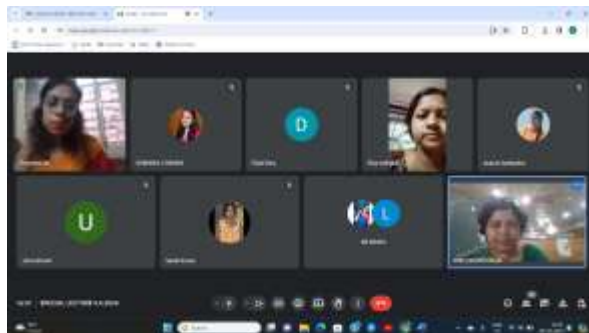

37 responses

Dr. Priyanka De delivering her lecture in the Online mode

STUDENTS INTERACTED WITH THE SPEAKER ON SEVERAL ISSUES; LIKE THE DIFFERENCE BETWEEN PHILOSOPHY AND SCIENCE AND ON DESCARTES FAMOUS STATEMENT 'I THINK THEREFORE I AM'

Report of Special Lecture

The department of History, organized a special lecture titled '*Understanding Heritage and its Conservation*' on 4th April, 2024 delivered by Dr. Santanu Banerjee, Assistant Professor, Department of English, and Curator, Setubandha Museum of Kazi Nazrul University. The topic is relevant to the SEC course of both Semesters I & III. The speaker's insightful and interesting lecture encompassed the meaning of heritage, efforts to locate and protect heritage and the work of the Asansol Heritage Group. It invoked lot of interesting questions from not only the student participants, but also from faculties from other departments. And this make the discussion part very much interesting.

আলোচনায় ঐতিহ্য-কথা

ঐতিহ্য বলতে মানে হলো অতীত থেকে প্রাপ্ত জিনিসপত্র, রীতি, নিয়মকানুন ইত্যাদি। অন্যভাবে বললে ঐতিহ্য হলো অতীতের জিনিসপত্র, রীতি, নিয়মকানুন ইত্যাদি। ঐতিহ্য হলো অতীতের জিনিসপত্র, রীতি, নিয়মকানুন ইত্যাদি। ঐতিহ্য হলো অতীতের জিনিসপত্র, রীতি, নিয়মকানুন ইত্যাদি।

REPORT OF THE SPECIAL LECTURE ORGANIZED BY THE DEPARTMENT OF POLITICAL SCIENCE on 27.03 .2024

TITLE OF THE TALK: "Politics and Culture: Interface and Divergence"

The poster features the logo of Durgapur Government College on the left. The right side contains contact information for the Office of the Principal, including the college's name, address (J.N. Avenue, Durgapur, Paschim Bardhaman, West Bengal), email (dgpgovtcollege@gmail.com), and website (www.durgapurgovtcollege.ac.in). The central text announces a Special Lecture on "Politics and Culture: Interface and Divergence" organized by the Department of Political Science. It identifies the resource person as Dr. Suman Nath, Assistant Professor in the Department of Anthropology at Dr. A. P. J. Abdul Kalam Government College. The lecture is scheduled for 27.03.2024 from 12 p.m. to 2 p.m. at Bidhan Prekshagriha. A portrait of Dr. Suman Nath is shown on the right, with his qualifications (M. Sc. (C.U.), Ph. D. (IIM Calcutta with C.U.)) and specialization (Social and Cultural anthropology, Politics and Governance, Public Policy and Resource Allocation) listed below.

OBJECTIVE: To promote an interdisciplinary approach to the concept of Culture and how it impacts politics and vice versa.

HIGHLIGHTS OF THE EVENT:

The event was inaugurated with a Welcome Address by Dr Nabamita Barman, Head of the Department of Political Science followed by the felicitation of the Resource person Dr.SumanNath, Assistant Professor, Department of Anthropology, Dr. A. P. J Abdul Kalam Government College who was invited to give a talk on the interface of power and culture to our students.

The session started at 12 noon with a total of 38 students from the Department of Political Science, History and English.

Dr Nath talked on the theoretical and empirical dimensions of the interface of power and culture.

Using movie clips and other visual aids such as photographs and some graphics, Dr.Nath explored different dimensions related to theories of power, politics and showed how these are connected to the major theoretical domains of legitimacy, governmentality, hegemony and presentation of self.

The lecture was about an hour long followed by a long session of conversation with the interested students and faculties present.

OUTCOME: The topic of the lecture covered a major portion of the topic political culture and its applicability in Political science and beyond. This interdisciplinary endeavor helped expanding the horizons of our students and teachers in understanding the phenomenon of culture and its dynamics in the field of politics.

1. Sohini Chakrabarty (6th) Ctg Roll - 21PLSH022	Sohini Chakrabarty	Good.
2. SANGRAM DAS College Roll - 22PLSH004 SEM: <u>IV</u>	Sangram Das	A very good seminar where which we can learn a lot.
3. TRIBHUVAN SHAW CLG ROLL: 22PLSP020 SEM - 04	Tribhuvan Shaw	I learned a new lesson from today's seminar which is very useful.
4. POULOMEI ACHARYA Ctg Roll - 22PLSH039 Sem - <u>IV</u>	Poulomei Acharya	This seminar is very helpful for us. I learn lots of things from this.
5. DAKHINATH SOREN COLLEGE ROLL - 21PLSH004 SEMESTER - <u>VI</u>	Dakhinath Soren	A very Advanced level seminar which help me to learn and understand lots of new things
6. Paulami Shaw Ctg Roll - 22PLSH035 Sem - <u>IV</u>	Paulami Shaw	This seminar is very helpful for us. I learn lots of things from this event.
7. SNEHASISH NAYAK CLG Roll - 23PLSU037 SEM - <u>I</u>	Snehasish Nayak	A new way of thinking in politics and power.

Name of the student	Signature	Remarks/Feedback
8. MANISH RAI CLG Roll - 23PLSU045 SEM - I	Manish Rai	So much Knowledge getting from only one seminar.
9. MAHUYA BARUI Clg Roll - 22PLSH002 Sem - IV	Mahuya Barui	A knowledgeable seminar for us.
10. SAIMANTI SIDDHANTA Clg Roll - 22PLSH031 Sem - IV	Saimanti Siddhanta	Learned a new concept of Power and Politics.
11. PUTUL KUMARI Clg roll - 22PLSH023 Sem - IV	Putul Kumari	This seminar is very helpful for us.
12. RISHIKA GHOSH Clg Roll - 23HISH016 Sem - II	Rishika Ghosh.	This seminar is very exciting and informational for us.
13) Ankita Singha Clg Roll - 23PLSU023 Sem - II	Ankita Singha	I learned many new things from this seminar. Its really very helpful. ✓
14. NILIMA SARKAR Clg Roll - 22PLSH029 Sem - 4th	Nilima Sarkar	A new way of thinking in Politics and power.

Name of the Student	Signature	Remarks / Feedback
15. BANANI HALDER Ctg Roll - 22PLS H013 Sem - 4th	Banani Halder	Thank you.
16. Sadia Khatun Roll - 22PLS H026 Sem - 4th	Sadia Khatun	Good.
17. Baisakhi Sow Mondal Roll - 21PLSH033 Sem - 6th	Baisakhi Sow Mondal	very good
18. Chumki Roy Roll - 21PLSH048 Sem - 6th	Chumki Roy	Good.
19. Pusa Mazumdar Roll - 21PLSH028 Sem - 6th	Pusa Mazumdar	very good
10. Disha Bagdi Roll - 21PLSH010 Sem - 6th	Disha Bagdi	very good. experience thanks a lot.
11. Jayashree Das. Roll - 21PLSH026 Sem - 6th	Jayashree Das.	Excellent.
12. SOMA BASKEY Roll - 21PLSH021 Sem - 6th	Soma Baskey	Glad to attend this seminar
13. MANASI GORAI ROLL - 21PLSH005 Sem - 6th	Manasi Gorai	Great experience.

Name of the Student	Signature	Remarks/ Feedback
14. Jyoti Bhattacharya. clg roll - 23PLSU022 sem - 2nd	Jyoti Bhattacharya	very good.
15. Pradipta Dutta clg roll - 23PLSH032 sem - 2nd	Pradipta Dutta	good.
16. Amrita Bain clg Roll - 23PLSH023 sem - 2nd	Amrita Bain	Excellent
17. Sneha Ghosh clg Roll - 21PLSH046 Sem - 6th	Sneha Ghosh.	Good
18. Tanushree Karmakar clg Roll No - 21PLSH023 Sem - 6th	Tanushree Karmakar	Good
19. Burona Mazumdar. clg Roll no - 21PLSH027 Sem - 6th	Burona Mazumdar.	Excellent.
20. Tanisha Ale clg Roll no - 21PLSH047 Sem - 6th	Tanisha Ale	I found this meeting really helpful. Thank you for organizing and a very special thanks to the great speaker.
21. Shreya Bameojee clg Roll NO - 21PLSH082 Semesters - 6th	Shreya Bameojee	Thank you for the webinar today. It was a pleasure to attend. Thank you again.

Name of the Student	Signature	Remarks/ Feedback.
22. Debalina Bhattacharjee UG Roll no. - 21PLSH043 Semester - 6 th	Debalina Bhattacharjee	The seminar was really enjoyable and it gave a very knowledgeable and informative experience about the said topic.
23. Khushi Kumari Roll No :- 22PLSH003 Sem :- 4 th	Khushi Kumari	Glad to be a part of this well-informative seminar.
24. Gargi Sen Roll NO :- 22PLSH017 Sem - 4 th	Gargi Sen	Well informative & glad to be a part of it.
25. Priyadisha Chakraborty Roll no :- 23ENG1033 Sem - 2nd	Priyadisha Chakraborty	Amazing and eye opening session!
26. Sayantika Shyam (Roll - 23ENG1002, Sem-2)	Sayantika Shyam	Impressive!
27. Disha Raha Roll no :- 23ENG1025	Disha Raha	Impressive!
28. Shilpi Sengupta Roll no :- 23ENGU023 Sem - 2. (Minor)	Shilpi Sengupta	Very informative and knowledgeable experience.

The Department of English initiated the Invited lecture series in collaboration with IQAC of the college. The Inaugural lecture on Indian Writing in English was delivered by Dr. Jaydeep Sarangi (Principal, New Alipore College and a noted poet and academician) on 16.1.2024. A student performance on Jaydeep Sarangi's poem was organized on that day. Students also presented their own poems.

Venue: Bidhan Prekhshagriha

Student Performance on poems of Jaydeep Sarangi

DEPARTMENT OF CHEMISTRY DURGAPUR GOVERNMENT COLLEGE

Established in 1972 to offer undergraduate chemistry programmes, Department of Chemistry, is presently a well established learning centre of chemistry at the undergraduate and postgraduate levels. The Department received grants under the DBT STAR COLLEGE SCHEME in September 2022, which will include several activities to promote undergraduate teaching with student-centric mechanism such as Student Projects, hands on training programmes, visits to research laboratories, new open ended experiments, more availability of equipment for students, invited lecture series, collaborations with other institutes etc.

OBJECTIVES OF THE INVITED LECTURE

This invited lecture is intended to impart the understanding of the fundamental aspects of asymmetric synthesis. Chiral molecules are ubiquitous in biologically active molecules. Chirality has a significant role to play in our daily life. Asymmetric synthesis allows designing highly efficient synthetic methods to obtain optically active molecules which have diverse applications in pharmaceutical industries for drug designing, food industries, agricultural industry, technology and many more.

DURGAPUR GOVERNMENT COLLEGE

Accredited by NAAC with "A" Grade in 2017

Affiliated to Kazi Nazrul University | UGC 2(f) and 12(B) Recognized College

DBT STAR COLLEGE SCHEME

Invited Lecture and Interactive Session Series

"Asymmetric Synthesis: Past, Present and Future"

December 16, 2023; Time: 1 pm

DR. SADHANENDU SAMANTA

Post Doctoral Research Fellow (JSPS)

Institute of Microbial Chemistry Tokyo, Japan

**(Alumni of Department of Chemistry,
Durgapur Government College)**

Organized by

Department of Chemistry, Durgapur Government College

No. 286

Date: 11-12-2023

NOTIFICATION

This is for information to all concerned that Department of Chemistry will organize online international level invited lecture on "*Asymmetric Synthesis: Past Present and Future*" by **Dr. Sadhanendu Samanta from Institute of Microbial Chemistry, Tokyo, Japan** under the DBT STAR COLLEGE SCHEME on **Saturday, 16-12-2023 from 1 pm onwards** under the DBT STAR COLLEGE SCHEME.

Departmental Coordinators are requested to join the event and inform the concerned students and faculty members accordingly.

Sub: Request to grant permission to organize special lecture series in November 2023

Respected Sir

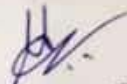

The Department of Conservation Biology is willing to organize special lecture series in the month of November, 2023. Eminent speakers will deliver their thoughts on online google meet platform which will benefit the students in the development of their curriculum. The topics covered will be in per se with the curriculum and syllabus of PG course.

Following is the schedule of the lecture series

Sl. No.	Name and designation of the resource person	Topic of the lecture	Date*
1	Dr Sagar Adhurya Ecology and ecological informatics lab, Department of Biology, College of Sciences, Kyung Hee University, Seoul, South Korea	Basic Ecological Modelling	04.11.2023
2	Dr Suprabhat Mukherjee Assistant Professor, Department of Animal Science, Kazi Nazrul University	Bioinformatics and Computer Application	14.11.2023
3	Dr Arnab Banerjee Assistant Professor, Department of Zoology School of Life Sciences, Sikkim University	Advanced Ecological Modelling using Network Analysis	18.11.2023
4	Director recommended Expert from Padmaja Naidu Himalayan Zoological Park, Darjeeling	Wild animal handling techniques	25.11.2023

*Dates can be changed as per the convenience and availability of the experts.

Kindly grant us the permission to organize the same and oblige.

Dr Moitreyee Chakrabarty
Assistant Professor and Head,
Department of Conservation Biology
Durgapur Government College

Head
Post Graduate Department
of Conservation Biology
Durgapur Government College

Dr. Suprabhat Mukherjee (Presenting)

- ❖ The term **"Bioinformatics"** was coined by **Paulien Hogweg** and **Ben Hesper** in 1970, referring to the use of information technology in the study of biological system.
- ❖ It is the crosstalk and combination between various disciplines like biology, medical science, mathematics, statistics, data sciences, computer science, information technology, etc.
- ❖ The science of bioinformatics is to develop algorithms and programmes to make computer understand the biological data, store it, process and interpret it.

General Network Model Architecture

- ❖ The term **Network** means a collection of **NODES** (compartment) and **EDGES** (flow)
- ❖ Nodes represent all the **Biotic** (*prey and predator*) and **Abiotic** (*detritus*) components of a system
- ❖ Nodes are interconnected by **EDGES** (flows)
- ❖ Edges are **weighted** (have a value associated with them representing the magnitude) and **directed** (flows are directional)
- ❖ **Direction** of flow – represented as f_{ij} – expresses a flow from compartment i to j .

Self Organizing Maps

- Self Organizing Maps (Kohonen Maps) are one form of Artificial Neural Networks.
- SOMs are capable of representing high dimensional data in simpler form (*dimension reduction*).
- Have the ability to *condense sparse* data and can also *spread-out dense* data.
- n input vectors are represented on m output units called *cells* on a **2D** surface called the **SOM map**.
- SOM maps are of *toroidal* topography.

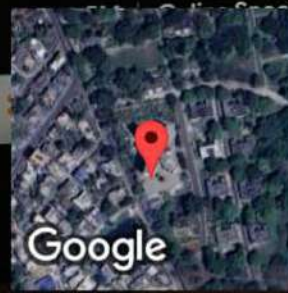

distance between weight and input $\rightarrow d_j(t) = \sum_{i=0}^{N-1} (x_i - w_{ij}(t))^2$

$$w_{ij}(t+1) = w_{ij}(t) + \eta(t)(x_i - w_{ij}(t))Z_j$$

Objectives of the Seminar

- **Education and Awareness:** Increase understanding about the importance of biodiversity, its components, and its role in sustaining life on Earth.
- **Conservation Advocacy:** Raise awareness about the threats to biodiversity, such as habitat destruction, climate change, pollution, and overexploitation of natural resources. Encourage discussions on conservation strategies and the importance of preserving biodiversity for future generations.
- **Promoting Sustainable Practices:** Highlight sustainable practices and initiatives that individuals, communities, industries, and governments can adopt to reduce their impact on biodiversity and ecosystems.
- **Inspiration and Motivation:** Inspire and motivate individuals to take action in their personal and professional lives to protect biodiversity, whether through lifestyle changes, advocacy, or supporting conservation efforts. : Encourage the involvement of youth in biodiversity conservation by providing educational resources, workshops, and activities to empower and inspire the next generation of environmental stewards.
- **Economic and Social Perspectives:** Explore the economic and social benefits of biodiversity conservation, including ecotourism, ecosystem services, and cultural significance, emphasizing the importance of balancing conservation with human needs.

The online seminar commenced on 12:00 noon at the Bidhan Prekshagriha auditorium of Durgapur Government College. Following inaugural lectures by The Coordinator, DBT College Scheme and Secretary of Teacher's Council Dr. Rajib Biswas, Assistant Professor, Department of Conservation Biology, introduced the eminent speaker Prof. Abhaya Prasad Das and requested him for his deliberation entitled "Effect of climatic amelioration on environment, biodiversity and future of biosphere". His lecture majorly emphasized on the aggravated usage of plastics in modern day and its adverse effect on biodiversity and biosphere as well. Key points of his lecture are summarized below:

- **Effects on Wildlife:** Plastics harm various species through ingestion, entanglement, and habitat disruption.
- **Marine Ecosystem Impact:** The impact of plastics on marine life, including ocean currents carrying plastics worldwide, affecting ecosystems globally.
- **Ecosystem Disruption:** Plastics can disrupt terrestrial ecosystems, affecting soil, plants, and animals.
- **Human Health:** The indirect impact of plastics on human health through the food chain and direct exposure to harmful chemicals.
- **Pollution and Microplastics:** The proliferation of microplastics in the environment and their widespread impact on biodiversity.
- **Sustainable Solutions:** Discussed potential solutions, such as recycling, reducing single-use plastics, policy changes, and innovative technologies for waste management

Images from the seminar on Effect of climatic amelioration on environment, biodiversity and future of biosphere

Outcomes of the Seminar

1. **Increased Awareness:** Participants gained a deeper understanding of the importance of biodiversity, its components, and the urgency of conservation efforts. This heightened awareness can extend beyond the seminar attendees as they share their knowledge and insights with others.
2. **Initiatives for Sustainable Practices:** Participants got inspired to implement sustainable practices in their respective fields, industries, or communities, reducing their ecological footprint and contributing to biodiversity conservation.
3. **Documentation and Research Advancements:** Insights shared during the seminar could inspire new research directions, innovative technologies, or methodologies for biodiversity assessment, monitoring, and conservation.
4. **Long-Term Impact:** Over time, the cumulative effect of the seminar's outcomes can lead to a broader societal shift towards valuing, protecting, and restoring biodiversity, contributing to a more sustainable future for both humans and the natural world.

Invited lecture on "Some zero-sum problems and elementary results in Additive Combinatorics" on 11.09.2023

An invited lecture on the topic "Some zero-sum problems and elementary results in Additive Combinatorics" by Professor Sukumar Das Adhikari, Professor and Dean, School of Mathematical Sciences, Ramakrishna Mission Vivekananda Educational and Research Institute, has been organised for the students on September 11, 2023.

**OFFICE OF THE PRINCIPAL
DURGAPUR GOVERNMENT COLLEGE**

J.N. Avenue, Durgapur, Paschim Bardhaman 713214

No. 197

Date: 02-09-2023

NOTIFICATION

This is for information to all concerned that Department of Mathematics will organize invited lecture on "*Some zero-sum problems and elementary results in Additive Combinatorics*" by *Professor Sukumar Das Adhikari, Professor and Dean, School of Mathematical Sciences, Ramakrishna Mission Vivekananda Educational and Research Institute*, for B.Sc. students on **11-09-2023 from 10.30 am onwards** under the DBT STAR COLLEGE SCHEME.

Departmental Coordinators are requested to inform the students of their respective departments for participation in the invited lecture.

Nivedita Acharjee

Dr. Nivedita Acharjee
Coordinator, DBT STAR COLLEGE SCHEME
Durgapur Government College

Principal
Durgapur Government College

- 3. Notice Book, Office of the Principal*

**DEPARTMENT OF MATHEMATICS
DURGAPUR GOVERNMENT COLLEGE**

The Department of Mathematics is one of the oldest departments for undergraduate education of Durgapur Government College and has always shared the vision in striving for excellence in teaching and research activities. Over the years, the department has produced many outstanding graduate students, who have taken their career in further studies including research and also hold reputed positions in different fields. The perfect blend of experienced and young faculty members reaches its planned goals of student outcome through team work. Our students have been placed for higher studies in IITs, NITs and other institutes of national repute. The Department has recently received grants under the DBT STAR COLLEGE SCHEME, which will include several activities to promote undergraduate teaching with student-centric mechanism such as Add on Courses, hands on training programmes, visits to higher educational institutes, invited lecture series, collaborations with other institutes etc.

Durgapur Government College

Accredited by NAAC with "A" Grade in 2017
Affiliated to Kazi Nazim University |
UGC-20 and 12(B) Recognized College

DBT STAR COLLEGE SCHEME

Invited Lecture on
"Some Zero-sum problems and elementary results in Additive Combinatorics"
September 11, 2023

RESOURCE PERSON

Speaker: Dr. Sukumar Das Adhikari
Professor and Dean, School of Mathematical Sciences,
Ramakrishna Mission Vivekananda Educational and
Research Institute, Belur-711202, West Bengal.

TARGET AUDIENCE

**All UG students of the Department
of Mathematics**

Organized by
Department of Mathematics
Durgapur Government College

ABSTRACT OF THE WORKSHOP:

We shall start with some classical questions in Additive Combinatorics and then talk about some early results on zero-sum problems in Additive Combinatorics.

SCHEDULE

10.30 am to 11.00 am:
Welcome Speech by Dr. Debnath Palit,
Principal, Durgapur Government College
Objective of the lecture series by
Dr. Nivedita Acharjee
Coordinator, DBT Star College Scheme,
Durgapur Government College
From 11.00 am onwards
Lecture on "Some zero-sum problems and elementary results in Additive Combinatorics"
by
Dr. Sukumar Das Adhikari,
Professor and Dean, School of Mathematical
Sciences, Ramakrishna Mission Vivekananda
Educational and Research Institute, Belur
Vote of thanks by Prof. Amitava Samanta,
Head, Department of Mathematics, Durgapur
Government College

Durgapur Government College.
Convener
Dr. Nabamita Barman
Organizing Committee
Dr. Saptarshi Bhaskar
Smt. Nidhi Mishra
Smt. Manika Das
Smt. Mithu Niyogi
Shri Baidyanath Kundu

Concept Note
Life can become smoother if rights and duties go hand in hand and become complementary to each other. Rights are what we want others to do for us whereas the duties are those acts which we should perform for others. Thus, a right comes with an obligation to show respect for the rights of others.
There are six fundamental rights guaranteed by the Indian constitution that include Right to equality, Right to freedom, Right against exploitation, Right to freedom of religion, cultural and educational rights, and Right to Constitutional Remedies.
Duty is an inalienable part of right. What is duty for one is another person's right. If everyone performs his/her duty, everybody's rights would be automatically protected. As a result, Fundamental duties were added in Part IV of the Indian constitution.

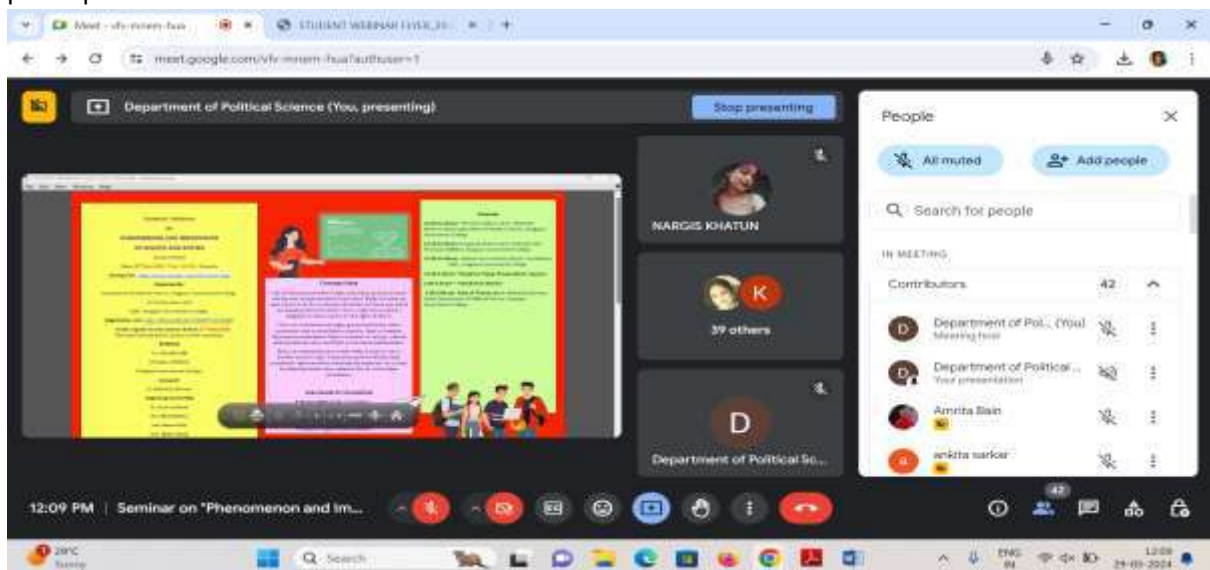

SUB-THEMES OF THE SEMINAR

- Human Rights in the 21st Century
- Challenges of achieving social equality in India
- Right to privacy in the digital age
- Religious freedom and secularism

Schedule
12.00-12.10 pm- Welcome address by Dr. Nabamita Barman, Head, Department of Political Science, Durgapur Government College
12.10-12.20 pm- Inaugural address by Dr. Debnath Palit, Principal, (WBSE), Durgapur Government College
12.20-12.30 pm- Address by Sri Subrata Ghosh, Coordinator, IQAC, Durgapur Government College
12.30-2.30 pm- Students' Paper Presentation Session
2.30-2.50 pm – Interactive Session
2.50-5.00 pm- Vote of Thanks by Dr. Nabamita Barman, Head, Department of Political Science, Durgapur Government College

Objective of the Seminar: To raise awareness about the significance of rights and duties in everyday parlance and to encourage the students to develop insights into the subject and develop the ability to communicate and present their ideas.

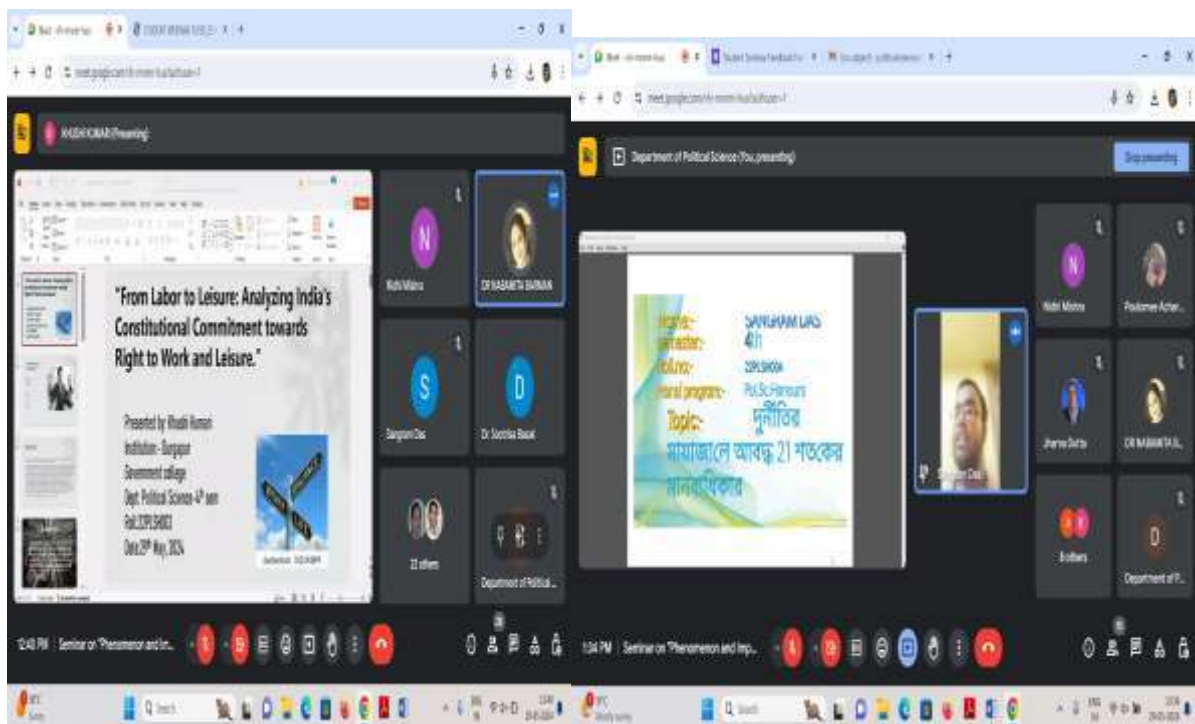

Highlights of the Event: The seminar commenced with an opening address by the Head of the Department of Political Science Dr Nabamita Barman who welcomed all the students for their active participation in the event.

Prof.Subrata Ghosh, Coordinator, IQAC, Durgapur Government College spoke to the students about the balance that should be maintained in exercising one's right and performing one's duties. It was followed by the faculty members speaking briefly on the importance of understanding rights and duties in today's society.

The students started with their presentation encompassing the theme of the seminar ranging from the right to work and leisure, right against corruption, right to religion and right to digital privacy.

Images: KhushiKumari, Semester IV Honours student of the Department of Political Science presenting her deliberation on the Right to Work and leisure (left) and Sangram Das, Semester IV Honours student presenting his paper on Right against Corruption.

After the successful presentation by all students, Dr SootrisaBasak, congratulated all the participants and offered constructive feedback to each participant. Based on all the parameters like coherence of thought, presentation style and topic chosen, KhushiKumari's presentation won the "Best Paper Presented" award. The Department also encouraged all the students to actively participate in future events to be organized by the Department.

Image: Screenshot of the participants present from all Semesters of the Department

Outcome of the event: Participants gained a deeper understanding of the complex interplay between rights and duties in different contexts. Students acquired knowledge about their rights and responsibilities as individuals. This seminar helped the students in expressing their thoughts and ideas and inspired the participants present to engage in future events.

Dr Nilanjana Chatterjee (Das)

Mr Sovan Bandyopadhyay

Smt. Sunrita Chakravarti

Smt. Samprikta Pal

Concept Note

The corpus of English literature is vast and ever burgeoning. It does not confine itself to the precincts of the English territory but takes into its ambit literatures written in the English language irrespective of the place of its production. The major reason behind the humongous magnitude of the oeuvre is the spread of the English language with the development of the British Empire between the late 16th and early 18th centuries. The colonial rule, the cross-cultural exchange, the anti-colonial and postcolonial resistance and also the growing impact of the language and literature in the settler colonies have resulted in a bulky body of literature which is truly "global" in all respects of the term.

Moreover, English literature has become a site of multiple critical enquires from diverse revisionist perspectives provided by the critical theories, making researches truly interdisciplinary in nature. Keeping this in mind, the present seminar invites articles covering all possible critical insights into English literature. The papers might cover but not restrict themselves to the following subthemes:

- British Literature
- Indian Writing in English
- European Literatures in English
- American Literature
- African-American Literature
- Caribbean Literature
- Australian Literature
- Canadian Literature
- Postcolonial Literatures
- Diasporic Literatures in English
- Literature in English Translation

Abstract Submission Guidelines

- Abstract of about 200 words may be emailed to eventsteamengdgc@gmail.com in MS Word format, Times New Roman Font (Font Size 12, double spaced) by 27.04.2024.
- Abstract must contain a suitable title, name, semester, course and institutional affiliation of the presenting author/s.
- Please write 'Students' Seminar: Global Perspectives on English Literature' as the subject of your mail.

ABSTRACTS

Blissful Ignorance

AlolikaChattopadhyay
Semester: VI
English UG
Bankura Christian College

Catherine Mansfield's novel deals with the main theme of "Bliss," exploring how individuals seek happiness amidst the mundane pursuit of goals. In the story, Bertha Young, the protagonist, embodies youthful ignorance as she approaches life with cheerful abandon, dancing, singing, and laughing with joy "at-nothing-at-nothing, simply". Despite her youthful exuberance, she faces challenges in her role as a mother, unable to freely interact with her baby without feeling judged by the nurse.

Bertha's acceptance of societal norms, such as her restricted access to her own child, reflects a poignant ignorance of her own rights and the depth of her maternal bond. Even though she is the child's mother, her husband and others question her ability to care for her own child, undermining the natural connection between mother and baby. So once she remarked that she came to the nursery "at another wrong moment". In her marriage, Bertha is depicted as an open-minded wife, enjoying social gatherings and forming new friendships, including one with Miss Fulton, whom she develops feelings for. She accepted that she loved someone "who had something strange about them". However, upon discovering her husband's affection for Miss Fulton, Bertha's blissful ignorance is shattered, and she experiences feelings of betrayal.

Despite the harsh realities of her life, Bertha attempts to maintain a façade of happiness, reminiscent of those who face insurmountable troubles but choose to ignore them, pretending that everything is fine. The closing line, "But the pear tree was as lovely as ever and as full of flowers and as still," encapsulates the idea that ignorance can indeed provide a sense of blissful contentment, as Bertha finds solace in the beauty of nature despite the turmoil in her personal life. The last line of the story says it all "But the pear tree was as lovely as ever and as full of flowers and as still."

Holly Jackson – The Evolved Agatha Christie Of Our Generation

AnushkaGhosal and SoumyashreeMondal
Semester: VI
English Hons.
Durgapur Government College

While delving into the realm of crime or detective fiction, the first female writer that comes to our mind is the 'Queen of Mystery,' Agatha Christie. Christie epitomizes the golden age of detective fiction with her intricate plots and iconic characters. As society evolves, contemporary authors like Holly Jackson emerge, reshaping the genre while honouring its storied past. This paper explores how Jackson, through her works, embodies Christie's legacy. Jackson has similar methods of crafting complex plots, unforgettable characters,

clever misdirection and delving into the darker sides of human nature which shows how she follows Christie's footsteps admirably. As society has changed, Jackson has embraced modern tools and themes, making her books even more captivating. She incorporates modern investigative techniques, explores the profound effects on crime on individuals and communities, delves into the mental health of her characters, and ensures diversity with characters from different ethnicities, races, and sexual orientations. By mixing classic styles with contemporary themes, Jackson breathes fresh life into mystery stories, appealing to a greater and new audience while honouring Christie's legacy as the ultimate mystery writer.

Title: Contemporary approaches to “Knight in Shining Armour adventure stories” by Stephanie Garber in her book *Caraval*

Arunima Das

Semester: VI

English Hons.

Durgapur Government College

Fairy tales have got much appreciation over the ages as children's classics and bedtime stories. We see a new approach to this genre through various writers and authors of the contemporary age. This paper presents a study aiming at discovering and analysing contemporary approaches to adventure stories by Stephanie Garber in her book *Caraval*. In this novel, the two protagonists Scarlett and Donatella come out of their traditionally defined roles, who tried to change their fortunes only depending on their own selves in their times of distress. The notion of damsel in distress is bestowed and reconstructed to challenge and change the expected gender roles. This novel rejects and challenges the early ideals of the adventure stories in many ways. Although the main aim of the story is how the elder sister, Scarlett enters the game of Caraval and tackles the obstacles to find his sister, we see the label of the knight cannot be given to only one character, as we see characters helping and saving each other out at various instances. Further, ancient beliefs of a woman becoming “the saviour figure” should possess masculine qualities is strongly declined and feminine core aesthetic is highly appreciated. Though the medieval adventure stories about knights are classics in English literature studies, the modern writing provides new insights to the contemporary audience.

Salman Rushdie's *Midnight's Children*: A Postcolonial Discourse

BhaswatiDebnath

Semester: VI

English Hons.

Durgapur Government College

The aim of this paper is to provide an overview of the postcolonial elements that has been deployed by Salman Rushdie in his magnum opus “Midnight's Children”. A prominent Indian born British novelist, Rushdie's novel narrates the culmination of the history of colonisation that happens at the birth of the protagonist Saleem Sinai, at the time of India's

independence from its colonisers. This postcolonial novel integrates the literary element of magic realism in an effort to unearth hidden truths. Written from a position “between two worlds”, the principal theme revolves around the intermingling that takes place between India’s history and the history of the three generations of the protagonist Saleem Sinai’s family. This amalgamation of their public and personal histories has been intentional in the context of the novelist’s attempt to highlight the issues posed by postcoloniality and the hurdles in discovering one’s authenticity. The standpoint of the novel’s narrator is central to the investigations into hybridity. The illustration of the novel’s postcolonial themes of creation, and the depictions of stories and personalities as well as historical depictions, takes place through the presence of the communal, historical and cultural hybridity in Rushdie’s “Midnight’s Children”. This paper tries to present these postcolonial literary elements that Rushdie has integrated in “Midnight’s Children”.

Politics in *Iliad*

Jisha Choudhury

Semester VI

English Hons.

Bankura Christian College

Homer’s epic poem, *The Iliad* provides a rich tapestry of political dynamics and themes that offer insights into the complex nature of ancient Greek society and governance. It also explores political and social dynamics within the Greek camp where various Greek leaders, such as Achilles, Odysseus and Ajax, vie for power and influence. These internal political rivalries and conflicts are often a source of tension and disruption, underscoring the complexity of managing a diverse coalition of city states and warriors.

The involvement of supernatural power into the affair of mortals are depicted here. It often aligning themselves with specific side or individual and influencing the war. This divine involvement in political matters reflects the ancient Greek belief in the interconnectedness of the mortal and divine realm.

Throughout the epic poem, the political and the personal are deeply intertwined. The personal grievances, passions and relationships of the characters often have significant political ramifications. The conflict between Achilles and Agamemnon, for instance, is rooted in a personal dispute over the spoils of war.

Political dynamics in Trojan War provides readers with a rich and nuanced understanding of the complexities of power, leadership on the Greek world.

A (Trans) Family of her Own: Reading A. Revathi’s *Truth About Me: A Hijra Life Story*

Kanchan Kumar Das

Semester: VI

English Hons.

Durgapur Government College

Family is a much more complex and intricate subject matter than its simple understanding of being at home with one’s loved ones. In *Family Theories*, Allen and Henderson problematize the concept of family by pointing out that family dynamics is affected by societal issues like a

family member's 'race, class, gender, sexual orientation, age, nationality, and other characteristics' (2017, 7). Moreover, family transactions might differ in the contexts of 'Black families; ... lesbian, gay, bisexual, transgender or queer (LGBTQ) families; childless families; extended families; single-adult families' (Allen and Hendersen 2017, 7). Family relationships furthermore depend on the fact that whether the aforementioned subject positions pertains to a parent or a child in the family. A family space, in ideal condition, is not merely a shelter but also an intimate space where a family member feels loved, territorialised and enjoys a certain amount of freedom of expression and acceptance. In A. Revathi's *Truth About Me: A Hijra Life Story* (2010), Revathi, suffers from a constant internal conflict, trauma, and domestic violence because of her transgender subject position as a child within her heteronormative family dynamics. As an adult, her relationship with her biological family doesn't improve much due to her affiliation to trans community. In her autobiography, she identifies herself as 'Hijra', a term commonly used in India to represent a certain individual who defies conventional gender norms (in her case, a trans woman, i.e., a feminine soul trapped inside a male body). Therefore, in Revathi's life, family dynamics is never limited to the biological concept of family and has a much broader or/and nuanced sphere to it. In this context, family assumes a unique significance, as hijras often form alternative familial structures and communal ties beyond the mainstream society.

The present study focuses on trans family space in A. Revathi's *Truth About Me: A Hijra Life Story* (2010) wherein societal discrimination, abuse, violence, and crisis within Revathi's (own) family are made visible. Moreover, it explores Revathi's broader family dynamics as a trans activist which too is not free from uncertainty and fear. For this, the study is divided into three sections. While the first section theorizes trans family dynamics, the second section questions the heteronormative family structure which rejects Revathi's positionality as a trans girl or/and woman and forces her to disappear from her Namakkal home multiple times. Moreover, the section explores Revathi's broader family in the hijra community as it examines her family transactions, rituals, mutual support systems, emotional bonding vis-a-vis uncertainties, traditional power dynamics, power struggles and tensions within the family. The third section thereby draws conclusion.

Trauma, Resilience, and Growth: A Psychoanalytic Reading of Harry Potter's Journey

NibeditaBauri

Semester: VI

English Hons.

Bankura Christian College

Introduced by the Austrian neurologist Sigmund Freud in the late 19th century, psychoanalytic theory is a generic term that can be applied to a variety of literary characters. The study explores the characters' responses to harrowing situations, their mirror strategies to tackle trauma in real life. In addition, it highlights some of the common defence mechanisms practised by Rowling's key characters. Understanding Harry's personality (a teenager haunted by his past) sheds light on how one can not only manage but overcome fears with determination leaving aside the possibility of being consumed by it. Moreover, the analysis depicts the core issues of the characters as manifestations of their past experiences in life. This thesis is a study of the childhood trauma and respective stratagem, the characters take

recourse to echoing real life circumstances. This paper aims to help readers gain insight into the inner motivations and thoughts of characters from two books of the Harry Potter series – *Harry Potter and the Prisoner of Azkaban* and *Harry Potter and the Deathly Hallows* through an attentive reading using psychoanalytic critique based on Freud's theories.

**Resisting economic hegemony of colonial encounter: A re-reading of Sarojini Naidu's
'In the Bazaars of Hyderabad'**

PreranaChatterjee
Semester: II
English Hons.
Durgapur Government College

The paper on Sarojini Naidu's "In The Bazaars of Hyderabad" seeks to re-read the poem as a post-colonial text which not only resists the sharp inroads of colonialism on Indian cultural and commercial life but at the same time articulates the Nationalistic pride of the poet in upholding one's own rich cultural tradition. The paper would initially focus on how Naidu celebrates indigenous Indian culture through the 'bazaars' of Hyderabad, thereby resisting colonial inroads into traditional Indian life. The bustling bazaars depicted by Naidu serve as microcosms of Indian society, where local tradition and customs thrive despite external influences. Through vivid imagery and descriptive language, Naidu paints an Indian market place that resists assimilation into Western norms. The paper would then proceed to trace the chequered patterns that lie hidden within the "bazaars" imagery to assert Indian agency and autonomy. The glorification of Indian products impresses one as an appeal to the Indian people to turn their face off the foreign goods, to embrace what is their own and inculcate a sense of pride in things bearing a swadeshi stamp. Finally, the paper would conclude that the celebration of nationalism, and its philosophical undertone have deep political intention - to counter the economic hegemony of goods which were thrust upon the Indian consumers as a bait to lure them away from a greater goal of national unity, pride and resistance to colonial rule.

**Reprisal owing to infidelity: Psychoanalysis of the speaker of Browning's The
Laboratory.**

PriyadishaChakraborty
Semester: II
English Hons.
Durgapur Government College

The study aims to analyse the psychopathy of the speaker, the noblewoman as epitomised in the poem 'The Laboratory' of Robert Browning which was published in 1844. This is a comprehensive study which is based on the Sigmund Freud's theory of psychoanalysis. Freud's model of the mind has three functional aspects: the id, superego and ego. The chief objective of the study is to shed light on the psychological disorder of the female figure of the

poem to profoundly study and exhibit the villainous traits that got injected inside her by the intensity of a melancholy of her life. This study would further proceed that she is not naturally violent and vengeful rather circumstances has compelled her to structured herself as a villain. Her immense determination of murdering her rival can be taken as caused by extreme mental shock. This article would analyse the chief reason behind the antagonistic activities of a protagonist.

Post-Modern Broken Heaps Vis-à-vis Postwar Renovation: Reading Philp Larkin's Select Poems

RachanaSamadder
Semester: IV
English Hons.
Durgapur Government College

Postmodernism (though impossible to define), in general, foregrounds recurrent motifs of general hopelessness, broken heaps of personal and societal images, uncomfortable and disturbing compositions. It, with its elementary feature of complexity and contradiction, is considered to be a drastic departure from the ultimate hope offered by Modernism. Postmodernism is a complete contrast to the ideology of modernist utopic faith in light at the end of the tunnel. While Jameson explicates, 'the postmodern looks for breaks . . . for the telltale instant after which [the world] is no longer the same' (*Postmodernism, or, the Cultural Logic of Late Capitalism* 1991, ix), it remains a fact that postmodernism also looks forward to post-war renovations and reconstruction mechanisms ("The Peculiarity of British Post-war Reconstruction?" dreams.wordpress.com). Architecturally speaking, in Britain as well as in other parts of Europe, it was the time to rebuild. The architects, the planners, or/and the local authorities were engaged in either rebuilding or reconstructing buildings and streets of England. In this context, how can British poets as city dwellers-and-dreamers of the 1950s remain untouched by the post-war priorities to re-construct, to resurrect, to reproduce, to replace and most importantly to dream in order to re-create versions of what had been exploded, destroyed, damaged and fragmented?

The present study attempts a close reading of Larkin's "Church Going", "The Whitsun Weddings", "Faith Healing", "High Windows" and "The Building" to show how Larkin not only makes visible the postmodern uncertainty and hopelessness but also offers a post-war emotional, intellectual, and spiritual renovation, healing, and faith. A post-covid reader of Larkin would relate to the human urge to prioritise resurrection and healing in the face of damage and fragmentation. The study, therefore, is divided into three segments: Section I contextualizes the historical background of British architectural renovation and reconstruction of the 1950s' post-war moment. Section II situates select poems of Larkin wherein the poet narrator prioritizes dwelling, dreaming, and hoping in the nooks and corners of 1950's British cityscapes which were 'always already' under renovations or/and reconstructions. Section III draws conclusion by emphasising the need to look for healing images in Larkin which is otherwise read for its postmodern heaps of broken images. In doing so, it tries to uphold the post-covid need to heal fractured hearts and to remember 'this too shall pass.'

The Symbolism Of Country Houses in *Pride and Prejudice*

Rikita Mitra and Moumita Das
Semester: IV
English Hons.
Durgapur Government College

Houses are not merely structures of bricks and stones, they are so much more. They are often symbols of social status and pride. Austen's masterpiece *Pride and Prejudice* is replete with reference to estates like Longbourn, Netherfield park, Rosings parks and Pemberly. This novel reveals that these houses are not just dwelling places with fancy names or mere backgrounds to primary action of the novel. These houses are infused with symbolic significance. They become projections of their owners' nature. They are not just reflective of class and social standing of the owners, they even manifest the essential traits and nature of those that inhabit or own them. Our paper is a humble attempt to validate the aforesaid argument with proper textual references.

Exploring the Curse of Baskerville : Superstition, rationality and suspense in Doyle's Classic

Riya Dubey
Semester: VI
English Hons.
Durgapur Government College

The Hound of Baskervilles, focuses on a course of superstition and suspense, creating an atmosphere of mystery and eeriness. Superstition is a notion of believing in some supernatural and other-worldly things that don't have any logic or reason behind them. It may vary from religious practices to personal beliefs and experiences and bringing forward make belief stories for creating a sense of fear. In contrast, rationality delves in the logic and reasoning behind a certain problem or work. In, this work of Arthur Conan Doyle, the superstition of a blood thirsty hound creates a sense of terror and fear in the minds of readers and even the characters. During the late Victorian era there is a sense of loss and the society induces narrow minded stature. People, have a strange belief on curses and it is still present in today's society. Similarly, the unfathomed mystery of the hound has a variety of its own variations among the common people. After an analysis of the novel, the article delves into the detailed balance of superstition and rationality within the narrative, examining how they play a role in shaping the atmosphere of the novel and its characters. Thus, the article delves into the psychological impact of superstition on characters and the initial scepticism that follows it.

A Far Cry from Nature: Environmental Colonialism

RupaliGorai
Semester: VI
English Hons.
Bankura Christian College

AmitavGhosh in his 2022 novel *The Living Mountain* projects the theme of environmental colonialism and its aftermath. It is the story of the innocent people living in the lap of nature and feeding on the blessing of the Great Mountain. The story narrates how The Anthropoi came and tried to abduct Nature with their lusty hands. The tragedy happens when the people of the village also joined them and forgot their old rituals. Thus, their veneration for the mountain ultimately turned into oblivion. The book explores the natural world as human beings' ultimate shelter. It also shows how people are heading towards a fatal future unknowingly. The book is relevant in the present context. Of late people have seen the outcomes of violating the natural order, now Nature is paying them back in the forms of natural upheavals. AmitavGhosh has already been vocal about this exploitation of the environment. Perhaps for the first time he is devoting a whole book to environmental colonialism and with this he combines the Hindu myth of the Himalayas. Writers and journalists wrote about cultural colonisation, military colonisation, financial colonisation etc. Now this environmental colonisation is a new domain and this short book of AmitavGhosh delves into this realm and makes us aware of the reality which the academic world tends to overlook. My paper will explore the discourse surrounding the intersection of nature and culture, seeking to uncover the complexities of this ongoing debate.

Exploring Universality: The Global Relevance of *The God of Small Things*

RupasiChakraborty
Semester: VI
English Hons.
Bankura Christian College

English literature has long been renowned for its ability to capture the human experience on a global scale. From the sweeping epics of Shakespeare to the intimate character studies of Jane Austen, English writers have demonstrated an uncanny knack for translating the universal truths of the human condition into timeless works of art. This global perspective has allowed English Literature to transcend geographical and cultural boundaries, resonating with readers across the world and cementing its place as a cornerstone of world literature. By embracing a global dynamic and multifaceted landscape, reflecting the rich tapestry of human experiences and perspectives from around the world.

The God of Small Things by Arundhati Roy holds a significant place in global literature due to its exploration of profound themes such as caste, politics, and social inequality in India. It offers insights into broader issues of colonialism, postcolonial identity, and the human condition, resonating with readers around the world. At its core, the novel explores the intricacies of familial relationships and the impact of societal norms on individual lives. Through the lens of the twin protagonists, Estha and Rahel, Roy delves into the complexities of love, loss, and the struggle for personal freedom. The novel's vivid imagery and rich

symbolism offer a universal appeal, inviting readers to reflect on their own experiences and emotions. In essence while *The God of Small Things* is deeply rooted in the Indian context, its themes and storytelling transcend geographical and cultural boundaries, making it a powerful work of literature with global resonance.

Alice's Quest for Identity

ShamayitaBandyopadhyay

Semester: VI

English Hons.

Bankura Christian College

Children often do things to escape the reality of life especially when they find themselves alone. Alice is no different. She escapes reality and falls into a rabbit hole which embodies her act of finding her true self. As soon as she enters the hole, she makes a 'wonderland' of her own i.e., she teleports herself into a dreamy world. The main idea of this novel is the quest for self-identity and for one's purpose in the world.

Her curious nature has led her into a Never-Never Land, over the edge of Reality, and into an alien world. The protagonist is a seven-year-old girl who falls into a rabbit hole chasing a White Rabbit. She then finds herself in a Wonderland where logic is not applicable and animals talk. This 7-year-old child's mind is vacillating between innocence and adolescence in her quest for identity. With Alice, we too examine and explore the world and the emotional and intellectual ability of a child.

This paper aims to discuss about Alice, the female protagonist in *Alice's Adventures in Wonderland* where her journey can be said to be a quest for knowledge and identity. She undergoes different emotional and physical transformations and finally attains maturity and self-confidence by encountering various creatures and experiences. Alice's intellectual growth helps her to return to reality making her more confident and self-dependent, atypical of the Victorian Ideal female.

Reading Natural Environment and Human Nature in Tagore's Short Stories

ShilpiSengupta

Semester: II

English UG

Durgapur Government College

Nature in Tagore's poetry, novels and plays have been read with an emphasis on its emotional, spiritual, and intellectual influence on human characters and relationships. However, Tagore's short stories have been critiqued for their complex human

characterizations, plot constructions or/and unique themes. Depiction of natural environment has remained under-noticed in serious scholarly writings on Tagore's short stories. The present study, therefore, is an attempt to understand how Rabindranath Tagore has connected natural environment and human nature to shape his characters in the short stories. Natural environment, in Tagore's short stories, molds and determines the identity of different characters. Moreover, the study explains how he has made creative use of components of natural surroundings like rivers, ponds, the sky, and clouds, etc. in forming the mood and tone of the setting in the short stories. Tagore's short stories strategically references different seasons, weather, and natural events which the study is interested to decipher. In so doing, it explicates how different elements of natural environment impact the characters, their cultural identities and demonstrates the characters' sense of territorial and cultural belonging. It brings forth how nature forms an essential role in making the situations in the story more emotionally captivating and more intellectually touching. The present study is a modest attempt to appreciate Rabindranath Tagore's creativity, imagination, and love for nature--both in environment and human--which is visible through his short stories.

Re-examining Women in the ByomkeshBakshi Detective Universe: A Feminist Lens

SouravKarmakar

Semester: VI

English Hons.

Bankura Christian College

Women characters in texts of detective fiction are often regarded as playing marginal and non-crucial roles in the building up of mysteries and complications in detective stories. The ByomkeshBakshi stories and novellas are no exceptions in this regard. Even their presence in terms of numbers is rather small. But it is nevertheless true that many of them hold an abiding appeal to the readers. Quite often the reader's fascination with these women is located at the site of their interactions with a society that is structurally male-dominated. The female characters indeed exhibit various degrees and forms of their allegiance with, and opposition to, a patriarchal ideology. The women in Saradindu Bandyopadhyay's detective story-world do not represent a homogeneous victimhood. They are never represented as passive sufferers. Even as their predicaments are different, they adopt different strategies of resistance and survival. While patriarchy offers them certain ready-made identities as moulds for their social personalities to fit in, they consistently interrupt and break the stereotypical framework offered for their representation. Thus they often shock the "male gaze" by being different, resourceful and strategic. By employing a feminist lens, the paper offers a fresh examination of the ByomkeshBakshi universe, revealing the multifaceted portrayals of women within it.

**Unveiling the Unreliable: An Analysis of Narrative Unreliability in Agatha Christie's
*The Murder of Roger Ackroyd***

SumanPatra
Semester: VI
English Hons.
Bankura Christian College

This research paper aims to explore a unique concept within Agatha Christie's widely famous detective fiction novel *The Murder of Roger Ackroyd*. Instead of focusing solely on the plot's twist ending, this study elucidates the intriguing narrative technique employed by Christie, known as 'narrative unreliability'. By examining the character perspective, narrative structure, and the role of the unreliable narrator, this paper aims to shed light on the ways in which Christie manipulates the reader's perception, challenges traditional detective fiction conventions, and delivers a masterful work of deception and misdirection. The narrator of the entire saga is Dr James Sheppard and how shrewdly he manages to present himself under the suspension of disbelief. Readers are forced to shake off their slightest sense of suspicion regarding our selfless doctor only to get affected by the most turbulent tornado of anagnorisis. Readers get diluted by his seemingly neutral perspectives and habit of omitting certain crucial details or rather it is the fault on the part of the readers to acknowledge unanimously according to their preconceived notions that the narrator- cum-assistant of the detective cannot be any less than the detective devoid of any sort of materialistic inclination. In this intricate dance between reader and narrator, Christie's storytelling prowess emerges, intricately intertwining the perspectives of both parties. Dr. Sheppard's calculated manipulation of reader trust and the readers' willing surrender to his narrative charm converge, creating a captivating dynamic that elevates the suspense and tension of the narrative. It is within this delicate interplay that the true brilliance of *The Murder of Roger Ackroyd* lies, enthralling readers and leaving an indelible mark on the landscape of detective fiction.

The 1950s Feminist Icon: Sylvia Plath

SusmitaDey
Semester: IV
English PG
Bankura Christian College

A plate of rice, each grain was perhaps taken from a different plant. But they lived the same lives, underwent the same process of cleaning and packaging destined to be consumed. Every female born on this planet have undergone some such processing. These ancient practices have not been changed. Their lives seem simple but when we hear their stories through the pieces of writing, the horror, the excruciating torment and the thorns of life seem evident. One such lady is our beloved, Sylvia Plath who got married to Ted Hughes but later divorced him due to his extramarital affair. Her semi-autobiographical novel *The Bell Jar* relates the pain of her teenage years. She at first lost her father, then the miscarriages she had, led to depression. Sylvia narrates the life of Esther Greenwood in her novel where the girl is seen

to enjoy an internship as the guest editor of Ladies Day Magazine, but she does not enjoy the ultra modern life style of the city. She meets two other interns who manifest contrasting views of femininity as well as Esther's own internal conflicts: the rebellious and sexual Doreen and the wholesome and virginal Betsy. *The Bell Jar* offers an in-depth meditation on womanhood and presents a complex and disturbing portrait of what it meant to be female in 1950s America. Esther reflects often on the differences between men and women as well as on the different social roles they are expected to perform.

Modern writers like Kamala Das and Angela Carter have continued the struggle and brought forth the designs of the society and would continue to do so.

**The Magic Of Folklores And The Realism Of Modern Times: A Look At The Peculiar
Narration In The Quintessential Marquezian Universe Of *One Hundred Years Of
Solitude***

Switi Mondal

Semester: VI

English Hons.

Bankura Christian College

An invaluable pioneer of "magic realism" as a literary genre, Gabriel Garcia Marquez has, over the years, crafted a scintillating style of eerie storytelling, often deemed canonical to the field. Works dealing with magic realism are unique for smudging the lines between what is real and unreal. The author's reticence and deadpan delivery of surrealistic scenarios make anything and everything happen in the plot without a hint of impracticality. Thus, the reader is left feeling confused, then inquisitive and at last compelled to employ a willing or not so willing "suspension of disbelief" in the novels.

One intriguing reason is the peculiar storytelling, reminiscent of the way folklores and fables have been narrated throughout centuries, tinged with the complete belief of the narrator.

Marquez's seminal piece *One Hundred Years of Solitude* is replete with unrealistic, folklore-like scenarios, with years of rain or unlimited breeding cattle or surreal longevity of some characters, which remove the setting far from anything palpably real. However, an element from the mundane world pulls the readers back to reality, suspending them in a limbo between the real and unreal. Interlaced with this supernatural universe is the veiled satire and critical commentary on society, which convey ideas in a parable-like fashion of imparting ethical values. The paradox of this eccentric style is that it bears the influence of age-old tales while also befitting the disorganised state of the modern times.

Construction of Space and Identity in Indian Diasporic Writing: A Comparative Study of the Works of Amitav Ghosh and Jhumpa Lahiri.

Tanmoy Sannigrahi
Semester: VI
English Hons.
Bankura Christian College

Diasporic Writing refers to the works of those authors who move to another country in search of a better livelihood. Yet, unable to get accustomed to the cultures of the new land, they yearn for their homeland. Hence, their writings are mainly marked by dislocation, alienation, longing, nostalgia, and a search for identity. Those immigrant inhabitants go through a constant struggle to adopt the new identity, whereas they still nourish a sweet nostalgic past of their homeland. In this way, they reflect upon the quest for identity in which they are hurled. But they end up being caged in a third space failing to adopt the new cultures and losing the previous one.

Migration builds up a multicultural identity. Diasporic writers, due to their migration, embrace it and achieve tremendous popularity because of their portrayal of issues like universal aspects of human existence. In the present-day literary field, diasporic writings possess huge importance. Especially, Indian writers like Amitav Ghosh, Salman Rushdie, Jhumpa Lahiri, Meena Alexander, Vikram Seth, etc. have taken centre stage in the globe for their prominent works in the last few decades. This article will focus on a comparative study of the famous authors, that is, Amitav Ghosh and Jhumpa Lahiri, and will try to explore how identity gets formed in the alien land and where the differences are made causing the writer to hanker after the nostalgic past.

The Magic Of Love And Friendship In Potter Universe

Utsa Chatterjee and Sayan Mukherjee
Semester: VI
English Hons.
Durgapur Government College

In the first book of the Potter series, *Harry Potter and the Philosopher's Stone*, (1997), J.K. Rowling makes use of the trope of fairy tale and creates a fabric of love and friendship through the intricate relationships of characters like Dumbledore, Snape, Ron and Hermione, McGonagall, Neville, and Harry Potter. Love appears in multiple forms in the text, including maternal devotion, unspoken affection, friendship, and selfless sacrifice.

Headmaster Albus Dumbledore, emerges as a benevolent father figure guiding and safeguarding those in his charge with constant compassion while Severus Snape on the other hand hides a deep-seated love which is difficult to comprehend on the surface. The friendship between the golden trio function as a recurrent motif in the seven novels as Rowling seeks to depict the importance of the desire for love and being loved in child psychology through the journey and growth of the boy-hero. Orphaned Harry finds the love that he had been craving for in his school at Hogwarts which eventually empowers him to overcome all challenges in his life. In Lily Potter's, sacrificial love for Harry lies the mother's selfless sacrifice which gives him the ultimate strength to combat against all forms of evils. The concept of love and

sacrifice presented in the novel is reminiscent of the notion of empathy and affection in Christian theology. The novel brings out a moral conflict and shows how love always wins over hatred at the end. We would like to look at the interplay of good and evil in Potter's world and try to analyse how Rowling projects love as the key to the very existence of life!

Glimpses of UG Semester-I Seminar on "Basic Stereochemistry" organized by Department of Chemistry, Durgapur Government College on 20-12-2023 and 21-12-2023

Glimpses of UG Semester-I Seminar on "Basic Stereochemistry" organized by Department of Chemistry, Durgapur Government College on 20-12-2023 and 21-12-2023

STUDENTS' SEMINAR BY DEPARTMENT OF HISTORY

A students' Seminar was held on 07.11.2023 by the students of 5th Semester Honours. Dweepa Nandi spoke on 'Taiping Rebellion'. Durga Halder spoke on 'May Fourth Movement'. Both the speakers spoke very well. All the students enjoyed the Seminar. The interactions were very lively.

- February 23, 2024, Laboratory Visit to Department of Environmental Science, The University of Burdwan; Organizing Department: Conservation Biology

Introduction

The laboratory visit was organized for second semester students pursuing Conservation Biology as part of their course curriculum in MSCCONBC206 paper. The primary objective was to explore and gain practical knowledge about sophisticated instruments used in environmental research. The visit took place at the Department of Environmental Science, The University of Burdwan on 23rd February 2024.

Instruments Explored

During the visit, students had the opportunity to observe and learn about the following advanced instruments:

- Spectrophotometer:** Students were introduced to the principles and applications of spectrophotometry. They learned how this instrument measures the absorption or transmission of light by a sample, aiding in quantitative analysis of various environmental parameters.
- Gas Chromatograph (GC):** The GC is a powerful analytical tool for separating and identifying volatile compounds in environmental samples. Students explored its working principles, sample preparation, and data interpretation.
- Scanning Electron Microscope (SEM):** SEM allows high-resolution imaging of surfaces at the nanoscale. Students observed environmental samples, such as soil particles, pollutants, and biological specimens, using SEM.
- Chemical Oxygen Demand (COD) Analyzer:** Students gained insights into water quality assessment by understanding COD analysis. This instrument measures the amount of oxygen required to oxidize organic and inorganic substances in water samples.
- Rotary Evaporator:** Students learned about solvent evaporation techniques using the rotary evaporator. It is commonly used for concentration, purification, and solvent recovery in environmental chemistry.
- Atomic Absorption Spectrophotometer (AAS):** AAS is essential for detecting and quantifying trace metals in environmental samples. Students explored its applications in environmental monitoring and pollution studies.

Key Takeaways

The laboratory visit provided several valuable insights:

- Hands-on Experience:** Students gained practical experience by operating the instruments under expert guidance.

- **Understanding Instrumentation:** They learned how these instruments contribute to environmental research, monitoring, and analysis.
- **Real-world Applications:** Students saw how these tools are used in environmental studies, pollution assessment, and biodiversity research.

Concluding Remark

The laboratory visit was a success, enhancing students' understanding of environmental instrumentation. It reinforced the importance of bridging theoretical knowledge with practical skills. As future conservationists, their exposure to these instruments will undoubtedly contribute to their research endeavours.

Dr Apurba Ratan Ghosh
Professor & Head

To Whom It May Concern

The bonafied students namely Rima Mondal, Sneha Nandi and Neha Dey of SEM I, Session 2023-'24 of Department of Conservation Biology (PG) of Durgapur Government College, Durgapur, Paschim Bardhaman visited the sophisticated laboratory of Department of Environmental Science, The University of Burdwan, Burdwan on 23rd of February 2024. Students were very much enthusiastic and motivated by observing and handling the sophisticated instruments that we have and installed in our laboratory like Atomic Absorption Spectrometer, Gas Chromatograph, Haematoanalyser, Enzymolyser, Uranium & Fluoride Meter, Microtome, Carbon Analyser. Students are assisted by the Mentor Dr Alope Kumar Mukherjee, Faculty Member of Conservation Biology, Durgapur Government College.

Sincerely yours,

[Apurba Ratan Ghosh]
